## RUSSIAN FORCE TAKEN

GENERAL ZASSALITCH AND THE MAJOR PORTION OF HIS COMMAND CAPTURED.

## BEAT RUSSIAN REAR GUARD

BUT THE JAPS ARE UNABLE TO FORCE BACK TROOPS OPPOSING KUROKI.

London, Sept. 12.—The Morning Post states that official Russian dispatches received in London announce that Lieutenant General Zassalitch, who commanded the portion of the Russian rear guards south of the Hun river, has been severely wounded and captured with 2,000 out of his 5,000 men.

It is added by the Morning Post that Generals Zaroubaleff, Kondravitch, and Biderling have checked General Kuroki's advance.

## JAPS MOVE RAPIDLY

AND THE INCREASE IN NUMBER OF RUSSIAN TROOPS IS OF LITTLE AVAIL.

St. Petersburg, Sept. 13.—The Birzheviya Viedmosti's correspondent at Tie pass telegraphs to his paper as follows:

"The Japanese, who had been accused of moving forward slowly, are now advancing very rapidly. Little avail the Russian increase of troops, for the Japanese are receiving reinforcements from Newchwang. The initiative will remain in the hands of the Japanese and their tactics will always be repeated."

## CAMPAIGN LOST TO RUSSIA.

French Correspondent Writes His Impressions of the War.

Paris, Sept. 13.—The Journal's Liaoyang correspondent, having ridden to Tientsin, sends thence the following uncensored dispatch, under date of Sept. 12:

"The first part of the campaign may be considered lost. The Russian army has retreated northward in the direction of Tie pass, or further. The Russian army's inferiority in men, guns and enthusiasm prevented Kuropatkin's resisting longer at Liaoyang or achieving at Yental a victory which would have obliged the Japanese to fall back. The Japanese will shortly triumphantly enter Mukden."

"The Russian general staff now estimates the Japanese forces at from 450,000 to 500,000. The Russian army will reconcentrate in the north, but it needs several months in order to fill up the losses in a number of corps, which must be doubled, and to replace reservists by active troops. Above all it is essential to restore the morale, affected by almost unprecedented trials and difficulties."

A Russian offensive movement will be impossible for a long time. Should Russia be determined to continue the effort it might still vanquish, but at a cost wholly disproportionate to the results. As an impartial witness I am convinced that it would be to the best interest of the belligerents to sink national pride and by mutual concessions, end a war which otherwise will ruin both."

## MARSHAL OYAMA REPORTS.

Japanese Commander Describes Disposition of Russian Forces.

Tokio, Sept. 13.—A telegram received here from Field Marshal Oyama gives the disposition of the Russian troops in the vicinity of Yental and Mukden. He says that a large force of Russian cavalry is posted at Pingtaltze, which is about twenty-four miles to the east of the Yental railway station, and that another force of cavalry occupied the town of Hellingchal to the northward of Pingtaltze. Other bodies of cavalry, with artillery, are located at Huangshanlin, on the eastern road out of Mukden, as well as in the neighborhood of Yumentzushan, which is occupied by the Japanese. Some detachments of the Japanese cavalry are posted at Fanchi, Kushutui and Menhukutun, along the railroad between Yental and Mukden, and are apparently keeping in touch with and watching the Japanese.

## NONCOMBATANTS WOUNDED.

Russians Refused to Let Them Leave Liaoyang.

Tokio, Sept. 13.—A report from the headquarters of the Manchurian armies tells of the pitiable condition of non-combatants in Liaoyang. It relates that while the Russians were holding the defense works close to the walls of Liaoyang they prohibited the removal of non-combatants from the city and consequently many were killed or wounded. Dr. A. M. Westwater, a well known British medical missionary of Liaoyang, is at present sheltering 200 wounded non-combatants and feeding and nursing many more. Concluding the report says:

"The conditions of these people is beyond description and it is awful to see the results of this Russian inhumanity. The killed and wounded, were of course, hit by our fire, but the

Russians were responsible. It is a great pity to extend the calamities to non-combatants."

## RUSSIANS INVADED KOREA.

General Linevitch Cut Communication of General Kuroki.

London, Sept. 13.—The Daily Mail's correspondent with the Japanese repeats the report that General Linevitch invaded Northern Korea and cut General Kuroki's communication with Fengwangtheng.

## THE LOOTING OF LIAOYANG.

Three Armies Took a Hand in Work of Pillage.

Liaoyang, Sept. 8, via Tientsin, Sept. 13.—The looting of Liaoyang has few parallels in the annals of warfare. Three armies on three different days had possession of the city and engaged in acts of depredation.

When the Russians entered into the occupancy of Liaoyang they built a model Russian city outside the old walled Chinese city and thousands of troops were lodged within its gates. When the Japanese drove the Russians out of Shanshampo hills the Russian soldiers realized that the town must fall and forgot all discipline. They looted the town, sparing neither Chinese nor European shops, destroying what they could not carry away. Much liquor was found, and the soldiers, becoming drunk, committed further excesses.

During the interim of the departure of the Russians and the arrival of the Japanese, the Chinese soldiers and police finished the work the Russians began, pillaged the shops that were not found by the Russians. Then when the Japanese came they completed the looting. They had been fighting for five days without food except dry rice, and broke loose upon entering the town. The Japanese looted right and left.

The shops having already suffered, the Japanese turned their attention to the private houses. The wanted food principally, but overlooked nothing. This was the first time in this war that the Japanese were guilty of looting a captured town and their officers were much disturbed by the outbreak. When order was restored the Japanese soldiers were taken out of the walled city and now are not allowed inside without a special pass.

## WILD RUMORS AFLOAT

ALEXIEFF TO RESIGN AND KUROPATKIN TO BE REMOVED FROM HIS POST.

St. Petersburg, Sept. 13.—With the lull in military operations and an almost entire suspension of dispatches from the front, St. Petersburg has again fallen back upon rumors. Countless stories are afloat regarding the Russian defeat at Liaoyang, some of which are absolutely absurd, while others have apparently enough basis in fact to give them color of possibility.

Of first importance is the revival of the rumor of Viceroy Alexieff's resignation, based probably upon differences said to exist between him and General Kuropatkin and others in authority in the far East.

Of next importance is the rumor that General Kuropatkin is to be superseded, Lieutenant General Linevitch being named as the most probable successor. This is supposed to rest upon the emperor's displeasure with Kuropatkin's generalship at Liaoyang and general dissatisfaction with the course of events at the front.

Neither Alexieff's nor Kuropatkin's friends seem to attach great importance to the stories involving them.

## JAPANESE FORCES ADVANCE.

Oyama's Armies Continue in Pursuit of Russians.

Tokio, Sept. 13.—Marshal Oyama's forces are advancing by easy stages in pursuit of General Kuropatkin's rear guard south of the Hun river, on the road to Mukden. News of further Japanese successes in rear guard engagements Kuropatkin is waging against Marshal Oyama's troops was received Monday. Rains continue in the country through which the troops are operating and may delay not only Kuropatkin's retreat on Harbin, but the Japanese advance beyond Mukden. Marshal Oyama could throw any of his three generals—Kuroki, Nodzu or Oku—across the Hun river at one point or another to attack the Russian rear guard in a pitched battle. The probability is, however, that the marshal will hold off until Kuropatkin's rear guard is north of Mukden, it being desirable for the Japanese to cross the Hun in strength before forcing another extensive engagement.

## Atlantic Wins Long Race.

New York, Sept. 13.—Wilson Marshall's three-masted schooner yacht Atlantic won the race for the Cape May cup which ended Monday. She finished at Sandy Hook lightship at 2:58:16 a. m., having covered the 220-mile course in 38 hours, 28 minutes and 6 seconds actual time. The Endymion was second, the Vengemere withdrew.

## Floods Wipe Out a Town.

El Paso, Tex., Sept. 13.—Further particulars from Presidio del Norte, state that floods of the Rio Grande wiped away the town with the exception of one house, and that is expected to go momentarily. The water is four feet deep in the streets.

## JAPAN FILES PROTEST

DEMANDS THAT RUSSIAN WARSHIP LEAVE THE PORT OF SAN FRANCISCO.

## THE TIME LIMIT HAS EXPIRED

RUSSIAN VESSEL HAS ALREADY BEEN IN PORT LONGER THAN THE LAW ALLOWS.

Washington, Sept. 13.—The expected protest of Japan against allowing the Russian cruiser Lena, which arrived in San Francisco Sunday, to remain in that port more than the twenty-four hours allowed by international law, came Monday when the Japanese consul general at San Francisco made formal demand that the vessel be required to leave at the end of that time. The collector of customs' telegram announcing the arriving of the Lena and the Japanese protest arrived together and copies were at once sent to Acting Secretary of State Adee and the department of commerce and labor, who has jurisdiction in the matter. The telegram reads as follows:

"Japanese consul has made demand up me that the Russian auxiliary cruiser Lena, arriving at this port 11th instant, leave within twenty-four hours. The captain reports that he has entered for repairs of engines and boilers, principally the latter. I am requesting the inspector of hulls and boilers to make an examination of vessel's machinery with consent of the Russian consul and the commander of the Lena. Can find no authority in law or regulations for this collector assuming any authority and request instructions."

After a conference with the commissioner of navigation, Assistant Secretary Murray sent the following message:

"Your telegram addressed to secretary of treasury regarding steamship Lena arrived at 4:30. You should have addressed this department, as directed in Circular 239. Wire this department hour of arrival in your report and a concise account of steamship's damages, if repairs are necessary, the extent of such repairs. On receipt of information the department will instruct further."

The circular referred to was issued immediately after hostilities commenced and besides containing the president's circular and provisions relating to neutrality, gave instructions to collectors that "should any case arise necessitating national action, you will report the facts to the department by telegraph."

## JAPANESE CONSUL PROTESTS.

Asks That Russian Ship Be Ordered to Leave Port.

San Francisco, Sept. 13.—No representative of the United States government has yet boarded the Russian converted cruiser Lena, which arrived here Sunday, for the purpose of substantiating the claims of Captain Berlinsky that the warship put in to this port solely for the reason that her boilers were in such condition as to render her absolutely unseaworthy. The Russian warship has now remained in port long over the twenty-four hour limit and prominent members of the local Russian and Japanese colonies are evidencing great interest in what they are prone to designate as a "serious complication."

It has been learned that the United States Inspector of Hulls and Boilers John K. Bulger will leave Tuesday on the United States revenue cutter Hartley for the Lena. He will make a thorough inspection of her boilers and as soon as possible will submit a written report to Collector of the Port Stratton. Upon this report may depend whether or not the Lena is ordered to put to sea or whether she will be allowed to remain until such time as the repairs deemed necessary may be made.

The Japanese were the first to bestir themselves when they learned of the presence of the Russian ship. Prominent members of the Japanese colony called on the Japanese consul general and a long conference was held. A prominent Japanese said that at this session it was decided to have the Japanese consul call on Collector Stratton and make the demand that the Lena

## Leave the Port Immediately.

Then in the event of the refusal of this request the consul general was advised to demand of Collector Stratton that he be allowed to be the sole judge of the fitness of the Russian cruiser to put to sea. In accordance with these plans the Japanese consul general called upon Collector Stratton Monday. The two gentlemen were closeted for an hour and a half. Neither would disclose what had been said, but it was learned at times the discussion was most animated.

To the first demand that the Lena be ordered to leave within the twenty-four-hour limit Collector Stratton returned a curt refusal, and also declined to accede to the demand that Consul Niven be permitted to be the judge of the seaworthiness of the Russian ship.

Later in the day Captain Berlinsky of the Lena, accompanied by the Russian consul, Kosakivitch, called on Collector Stratton. Captain Berlinsky assured the collector that he would be most happy to acquiesce in any demand relative to an investigation of

the condition of his ship that the collector thought necessary. He carried with him duplicate copies of a somewhat lengthy statement, one of which he sent to the Japanese consulate and the other to Admiral Goodrich, commanding the American fleet now in this harbor. The contents of this statement were not made public, but it was known that the captain explained why the Lena was in this port, just what repairs he deemed necessary to make his ship seaworthy and just how much coal he thought essential for him to take on board.

## TWO MEN KILLED IN WRECK.

Several Other Persons Injured and Big Locomotives Demolished.

Reno, Nev., Sept. 13.—Two men were killed and several passengers were injured Monday by a collision between Southern Pacific passenger trains at Lawton, seven miles west of Reno.

The dead are Fireman A. L. Hicks and an unknown man. Both were scalded to death. All of the injured have been brought here and will recover. The second section of westbound train No. 5, while running at a speed of thirty-five miles an hour, crashed into the third section of eastbound train No. 6, carrying a large party of returning Knights Templars. Each train was a double-header with a heavy train of Pullmans and day coaches. All of the four engines are complete wrecks as well as the baggage and day coaches of both trains. The accident was due to disobedience of orders.

## MINNEAPOLIS GIRL SUICIDES.

Artists' Model Ends Her Life in Lake Michigan While Despondent.

Chicago, Sept. 13.—Sunday the body of a young woman, evidently about twenty-six years of age, was found floating in Lake Michigan near the clubhouse of the Chicago Yacht club. The woman in life had evidently possessed refinement and intelligence and the police made extra effort to ascertain her identity and learned that the woman was Maud Wolcott, an artists' model, who came to this city from Minneapolis some months ago. Letters and papers found in her trunk lead the police to believe that she grew weary of the uncertainty of her means of gaining a livelihood and took her life by throwing herself into the lake.

## WELCOMES PARLIAMENTARIANS.

F. E. Loomis Delivers an Address in Behalf of President Roosevelt.

St. Louis, Sept. 13.—The first session of the Interparliamentary congress which convened in festival hall Monday was devoted to greeting the delegates. First Assistant Secretary of State F. E. Loomis delivered the address of welcome on behalf of the president of the United States. A long discussion followed, and then the delegates spent the remainder of the day in visiting the world's fair.

## FOUR PERSONS CREMATED.

Three Others Injured in a Fire in a New York Tenement.

New York, Sept. 13.—Four persons were burned to death and three were injured in a fire which destroyed the three floors of a tenement at 68-80 First street Tuesday morning. Three of the victims were men and the fourth a woman. Their bodies were found by the firemen.

## French Duelist Wounded.

Paris, Sept. 13.—The notorious Max Regis, formerly mayor of Algiers and well known anti-Semite, slightly wounded M. Fontaine, a prominent sportsman, Monday, in a sword duel fought in the suburbs.

## RIOTING IN CHICAGO

SEVERAL PERSONS HURT IN ATTACKS UPON NONUNION MEN AT STOCKYARDS.

Chicago, Sept. 13.—Two savage attacks were made upon nonunion workers at the stockyards Monday and in the fight that followed eight people were injured, four of them so seriously that it was necessary to take them to hospitals. At Halsted and Root streets, two young women were pounded over the heads, knocked down and badly beaten before the police arrived. One, Miss Annie Cook, was severely cut in the face and her shoulder was injured and she was taken to the hospital. Miss Mamie Jasper was struck with a brick and her face and forehead were badly cut. It was found necessary to take her also to the hospital. Three policemen rescued the women from the mob but it refused to disperse and continued to throw stones. A westbound car which happened to pass during the trouble was struck by several of the missiles and two of the passengers were struck, a woman being hit in the mouth with a brick and her front teeth knocked out.

Anton Asahutra, a driver for a brewery, tried to drive through the crowd and was hit in the back of the head with a brick and knocked from his wagon. His scalp was badly cut. A call for help had been sent in and six officers soon arrived. The crowd soon scattered.

Ten minutes after the officers returned to the station they were called out to suppress a second riot in which seven colored men employed in the stockyards were attacked by a large crowd of strike sympathizers. John Sims, one of the colored men, was badly hurt.

## ARMED FRIENDS ON GUARD.

Would Prevent Capture of the Altman Brothers.

Atlanta, Ga., Sept. 13.—A special from Gunde, Ga., says a party of about fifty friends are standing guard with loaded Winchester around a house in Baxter county, Fla., in which are Charles Altman and Hillary Altman, two men who are accused of killing a negro and a white man on an excursion train near that place Sunday night. The friends of the Altman say the sheriff or military will have to take them over their dead bodies. The two men killed were Jackson Duncan, a young white man, and Jim Riley, a negro. William Duncan, the father of the man who was killed, was shot from ambush four times Monday. It is not known who did the shooting. It is reported that the military company from Jacksonville has been ordered to the scene. The exact cause of the trouble on the train is not known.

## NEGROES DRIVEN OUT OF TOWN.

Race Feeling Becomes Intense at Carlisle, Ind.

Carlisle, Ind., Sept. 13.—Jasper Hammond, colored, while resisting arrest, was shot and seriously wounded by Constable Johnson. Hammond was trying to renew a quarrel with other negroes. At night a mob gathered and drove all the resident negroes out of town. Race feeling is intense and it is feared negroes having homes here will be compelled to leave. Hammond was taken to the Sullivan jail for safe keeping when threats of lynching were heard.

Oyama's Armies Continue in Pursuit of Russians.

Tokio, Sept. 13.—Marshal Oyama's forces are advancing by easy stages in pursuit of General Kuropatkin's rear guard south of the Hun river, on the road to Mukden. News of further Japanese successes in rear guard engagements Kuropatkin is waging against Marshal Oyama's troops was received Monday. Rains continue in the country through which the troops are operating and may delay not only Kuropatkin's retreat on Harbin, but the Japanese advance beyond Mukden. Marshal Oyama could throw any of his three generals—Kuroki, Nodzu or Oku—across the Hun river at one point or another to attack the Russian rear guard in a pitched battle. The probability is, however, that the marshal will hold off until Kuropatkin's rear guard is north of Mukden, it being desirable for the Japanese to cross the Hun in strength before forcing another extensive engagement.

## Atlantic Wins Long Race.

New York, Sept. 13.—Wilson Marshall's three-masted schooner yacht Atlantic won the race for the Cape May cup which ended Monday. She finished at Sandy Hook lightship at 3:58:16 a. m., having covered the 220-mile course in 38 hours, 28 minutes and 6 seconds actual time. The Endymion was second, the Vengemere withdrew.

## Floods Wipe Out a Town.

El Paso, Tex., Sept. 13.—Further particulars from Presidio del Norte, state that floods of the Rio Grande river Saturday and Sunday completely wiped away the town with the exception of one house, and that is expected to go momentarily. The water is four feet deep in the streets.

## JAPAN FILES PROTEST

**DEMANDS THAT RUSSIAN WARSHIP LEAVE THE PORT OF SAN FRANCISCO.**

## THE TIME LIMIT HAS EXPIRED

**RUSSIAN VESSEL HAS ALREADY BEEN IN PORT LONGER THAN THE LAW ALLOWS.**

Washington, Sept. 13.—The expected protest of Japan against allowing the Russian cruiser Lena, which arrived in San Francisco Sunday, to remain in that port more than the twenty-four hours allowed by international law, came Monday when the Japanese consul general at San Francisco made formal demand that the vessel be required to leave at the end of that time. The collector of customs' telegram announcing the arriving of the Lena and the Japanese protest arrived together and copies were at once sent to Acting Secretary of State Adee and the department of commerce and labor, who has jurisdiction in the matter. The telegram reads as follows:

"Japanese consul has made demand up me that the Russian auxiliary cruiser Lena, arriving at this port 11th instant, leave within twenty-four hours. The captain reports that he has entered for repairs of engines and boilers, principally the latter. I am requesting the inspector of hulls and boilers to make an examination of vessel's machinery with consent of the Russian consul and the commander of the Lena. Can find no authority in law or regulations for this collector assuming any authority and request instructions."

After a conference with the commissioner of navigation, Assistant Secretary Murray sent the following message:

"Your telegram addressed to secretary of treasury regarding steamship Lena arrived at 4:30. You should have addressed this department, as directed in Circular 239. Wire this department hour of arrival in your report and a concise account of steamship's damages, if repairs are necessary, the extent of such repairs. On receipt of information the department will instruct further."

The circular referred to was issued immediately after hostilities commenced and besides containing the president's circular and provisions relating to neutrality, gave instructions to collectors that "should any case arise necessitating national action, you will report the facts to the department by telegraph."

## JAPANESE CONSUL PROTESTS.

Asks That Russian Ship Be Ordered to Leave Port.

San Francisco, Sept. 13.—No representative of the United States government has yet boarded the Russian converted cruiser Lena, which arrived here Sunday, for the purpose of substantiating the claims of Captain Berlinksky that the warship put in to this port solely for the reason that her boilers were in such condition as to render her absolutely unseaworthy. The Russian warship has now remained in port long over the twenty-four hour limit and prominent members of the local Russian and Japanese colonies are evidencing great interest in what they are prone to designate as a "serious complication."

It has been learned that the United States Inspector of Hulls and Boilers John K. Bulger will leave Tuesday on the United States revenue cutter Hartley for the Lena. He will make a thorough inspection of her boilers and as soon as possible will submit a written report to Collector of the Port Stratton. Upon this report may depend whether or not the Lena is ordered to put to sea or whether she will be allowed to remain until such time as the repairs deemed necessary may be made.

The Japanese were the first to bestir themselves when they learned of the presence of the Russian ship. Prominent members of the Japanese colony called on the Japanese consul general and a long conference was held. A prominent Japanese said that at this session it was decided to have the Japanese consul call on Collector Stratton and make the demand that the Lena

## Leave the Port Immediately.

Then in the event of the refusal of this request the consul general was advised to demand of Collector Stratton that he be allowed to be the sole judge of the fitness of the Russian cruiser to put to sea. In accordance with these plans the Japanese consul general called upon Collector Stratton Monday. The two gentlemen were closeted for an hour and a half. Neither would disclose what had been said, but it was learned at times the discussion was most animated.

To the first demand that the Lena be ordered to leave within the twenty-four hour limit Collector Stratton returned a curt refusal, and also declined to accede to the demand that Consul Nveno be permitted to be the judge of the seaworthiness of the Russian ship.

Later in the day Captain Berlinksky of the Lena, accompanied by the Russian consul, Kosakivitch, called on Collector Stratton. Captain Berlinksky assured the collector that he would be most happy to acquiesce in any demand relative to an investigation of

the condition of his ship that the collector thought necessary. He carried with him duplicate copies of a somewhat lengthy statement, one of which he sent to the Japanese consulate and the other to Admiral Goodrich, commanding the American fleet now in this harbor. The contents of this statement were not made public, but it was known that the captain explained why the Lena was in this port, just what repairs he deemed necessary to make his ship seaworthy and just how much coal he thought essential for him to take on board.

## TWO MEN KILLED IN WRECK.

Several Other Persons Injured and Big Locomotives Demolished.

Reno, Nev., Sept. 13.—Two men were killed and several passengers were injured Monday by a collision between Southern Pacific passenger trains at Lawton, seven miles west of Reno.

The dead are Fireman A. L. Hicks and an unknown man. Both were scalded to death.

All of the injured have been brought here and will recover.

The second section of westbound train No. 5, while running at a speed of thirty-five miles an hour, crashed into the third section of eastbound train No. 6, carrying a large party of returning Knights Templars. Each train was a double-header with a heavy train of Pullmans and day coaches. All of the four engines are complete wrecks as well as the baggage and day coaches of both trains. The accident was due to disobedience of orders.

## MINNEAPOLIS GIRL SUICIDES.

Artists' Model Ends Her Life in Lake Michigan While Despondent.

Chicago, Sept. 13.—Sunday the body of a young woman, evidently about twenty-six years of age, was found floating in Lake Michigan near the clubhouse of the Chicago Yacht club. The woman in life had evidently possessed refinement and intelligence and the police made extra effort to ascertain her identity and learned that the woman was Maud Wolcott, an artists' model, who came to this city from Minneapolis some months ago. Letters and papers found in her trunk led the police to believe that she grew weary of the uncertainty of her means of gaining a livelihood and took her life by throwing herself into the lake.

## WELCOMES PARLIAMENTARIANS.

F. E. Loomis Delivers an Address in Behalf of President Roosevelt.

St. Louis, Sept. 13.—The first session of the interparliamentary congress which convened in festival hall Monday was devoted to greeting the delegates. First Assistant Secretary of State F. E. Loomis delivered the address of welcome on behalf of the president of the United States. A long discussion followed, and then the delegates spent the remainder of the day in visiting the world's fair.

## FOUR PERSONS CREMATED.

Three Others Injured in a Fire in a New York Tenement.

New York, Sept. 13.—Four persons were burned to death and three were injured in a fire which destroyed the third floor of a tenement at 68-80 First street Tuesday morning. Three of the victims were men and the fourth a woman. Their bodies were found by the firemen.

## French Duelist Wounded.

Paris, Sept. 13.—The notorious Max Regis, formerly mayor of Algiers and well known anti-Semite, slightly wounded M. Fontaine, a prominent sportsman, Monday, in a sword duel fought in the suburbs.

## NEGROES DRIVEN OUT OF TOWN.

Race Feeling Becomes Intense at Carlisle, Ind.

Carlisle, Ind., Sept. 13.—Jasper Hammond, colored, while resisting arrest, was shot and seriously wounded by Constable Johnson. Hammond was trying to renew a quarrel with other negroes. At night a mob gathered and drove all the resident negroes out of town. Race feeling is intense and it is feared negroes having homes here will be compelled to leave. Hammond was taken to the Sullivan jail for safe keeping when threats of lynching were heard.

## ARMED FRIENDS ON GUARD.

Would Prevent Capture of the Altman Brothers.

Atlanta, Ga., Sept. 13.—A special from Gunde, Ga., says a party of about fifty friends are standing guard with loaded Winchester around a house in Baxter county, Fla., in which are Charles Altman and Hillary Altman, two men who are accused of killing a negro and a white man on an excursion train near that place Sunday night. The friends of the Altmans say the sheriff or military will have to take them over their dead bodies. The two men killed were Jackson Duncan, a young white man, and Jim Riley, a negro. William Duncan, the father of the man who was killed, was shot from ambush four times Monday. It is not known who did the shooting. It is reported that the military company from Jacksonville has been ordered to the scene. The exact cause of the trouble on the train is not known.

## RIOTING IN CHICAGO

SEVERAL PERSONS HURT IN ATTACKS UPON NONUNION MEN AT STOCKYARDS.

Chicago, Sept. 13.—Two savage attacks were made upon nonunion workers at the stockyards Monday and in the fight that followed eight people were injured, four of them so seriously that it was necessary to take them to hospitals. At Halsted and Root streets, two young women were pounded over the heads, knocked down and badly beaten before the police arrived. One, Miss Annie Cook, was severely cut in the face and her shoulder was injured and she was taken to the hospital. Miss Mamie Jasper was struck with a brick and her face and forehead were badly cut. It was found necessary to take her also to the hospital. Three policemen rescued the women from the mob but it refused to disperse and continued to throw stones. A westbound car which happened to pass during the trouble was struck by several of the missiles and two of the passengers were struck, a woman being hit in the mouth with a brick and her front teeth knocked out.

Anton Asahutra, a driver for a brewery, tried to drive through the crowd and was hit in the back of the head with a brick and knocked from his wagon. His scalp was badly cut. A call for help had been sent in and six officers soon arrived. The crowd soon scattered.

Ten minutes after the officers returned to the station they were called out to suppress a second riot in which seven colored men employed in the stockyards were attacked by a large crowd of strike sympathizers. John Sims, one of the colored men, was badly hurt.

## RUSSIAN FORCE TAKEN

GENERAL ZASSALITCH AND THE  
MAJOR PORTION OF HIS COM-  
MAND CAPTURED.

## BEAT RUSSIAN REAR GUARD

BUT THE JAPS ARE UNABLE TO  
FORCE BACK TROOPS OP-  
POSING KUROKI.

London, Sept. 13.—The Morning  
Post states that official Russian dis-  
patches received in London announce  
that Lieutenant General Zassalitch,  
who commanded the portion of the  
Russian rear guards south of the Hun  
river, has been severely wounded and  
captured with 3,000 out of his 5,000  
men.

It is added by the Morning Post that  
Generals Zaroubaleff, Kondravitch,  
and Biderling have checked General Ku-  
rokki's advance.

## JAPS MOVE RAPIDLY

AND THE INCREASE IN NUMBER  
OF RUSSIAN TROOPS IS OF  
LITTLE AVAIL.

St. Petersburg, Sept. 13.—The Bir-  
zheviya Viedmosti's correspondent at  
Tientsin, sends thence the following  
uncensored dispatch, under date of  
Sept. 12:

"The Japanese, who had been accus-  
ed of moving forward slowly, are now  
advancing very rapidly. Little avail  
the Russian increase of troops, for the  
Japanese are receiving reinforcements  
from Newchwang. The initiative will  
remain in the hands of the Japanese  
and their tactics will always be re-  
peated."

## CAMPAIGN LOST TO RUSSIA.

French Correspondent Writes His Im-  
pressions of the War.

Paris, Sept. 13.—The Journal's Liao-  
yang correspondent, having ridden to  
Tientsin, sends thence the following  
uncensored dispatch, under date of  
Sept. 12:

"The first part of the campaign may  
be considered lost. The Russian army  
has retreated northward in the direc-  
tion of Tie pass, or further. The Rus-  
sian army's inferiority in men, guns  
and enthusiasm prevented Kuropat-  
kin's resisting longer at Liaoyang or  
achieving at Yental a victory which  
would have obliged the Japanese to  
fall back. The Japanese will shortly  
triumphantly enter Mukden.

"The Russian general staff now es-  
timates the Japanese forces at from  
450,000 to 500,000. The Russian army  
will reconcentrate in the north, but  
it needs several months in order to  
fill up the losses in a number of corps,  
which must be doubled, and to replace  
reservists by active troops. Above all  
it is essential to restore the morale,  
affected by almost unprecedented trials  
and difficulties.

A Russian offensive movement will  
be impossible for a long time. Should  
Russia be determined to continue the  
effort it might still vanquish, but at a  
cost wholly disproportionate to the  
results. As an impartial witness I am  
convinced that it would be to the  
best interest of the belligerents to  
sink national pride and by mutual con-  
cessions, end a war which otherwise  
will ruin both."

## MARSHAL OYAMA REPORTS.

Japanese Commander Describes Dis-  
position of Russian Forces.

Tokio, Sept. 13.—A telegram re-  
ceived here from Field Marshal Oyama  
gives the disposition of the Rus-  
sian troops in the vicinity of Yental  
and Mukden. He says that a large  
force of Russian cavalry is posted at  
Pingtaizze, which is about twenty-  
four miles to the east of the Yental  
railway station, and that another  
force of cavalry occupied the town of  
Hellingchat to the northward of Ping-  
taizze. Other bodies of cavalry, with  
artillery, are located at Huangshanlin,  
on the eastern road out of Mukden,  
as well as in the neighborhood of  
Yumentzushan, which is occupied by  
the Japanese. Some detachments of  
Russian cavalry are posted at Fanchi,  
Kushutui and Menhukutun, along the  
railroad between Yental and Mukden,  
and are apparently keeping in touch  
with and watching the Japanese.

## NONCOMBATANTS WOUNDED.

Russians Refused to Let Them Leave  
Liaoyang.

Tokio, Sept. 13.—A report from the  
headquarters of the Manchurian armies  
tells of the pitiable condition of non-  
combatants in Liaoyang. It relates  
that while the Russians were holding  
the defense works close to the walls  
of Liaoyang they prohibited the re-  
moval of non-combatants from the  
city and consequently many were  
killed or wounded. Dr. A. M. West-  
water, a well known British medical  
missionary of Liaoyang, is at present  
sheltering 200 wounded non-combat-  
ants and feeding and nursing many  
more. Concluding the report says:  
"The condition of these people is  
beyond description and it is awful to  
see the results of this Russian in-  
humanity. The killed and wounded,  
were of course, hit by our fire, but the

Russians were responsible. It is a  
great pity to extend the calamities to  
noncombatants."

## RUSSIANS INVADDED KOREA.

General Linevitch Cut Communication  
of General Kuroki.

London, Sept. 13.—The Daily Mail's  
correspondent with the Japanese re-  
ports the report that General Line-  
vitch invaded Northern Korea and cut  
General Kuroki's communication with  
Fengwangcheng.

## THE LOOTING OF LIAOYANG.

Three Armies Took a Hand in Work  
of Pillage.

Liaoyang, Sept. 8, via Tientsin, Sept.  
13.—The looting of Liaoyang has few  
parallels in the annals of warfare.  
Three armies on three different days  
had possession of the city and en-  
gaged in acts of depredation.

When the Russians entered into the  
occupancy of Liaoyang they built a  
model Russian city outside the old  
walled Chinese city and thousands of  
troops were lodged within its gates.  
When the Japanese drove the Russians  
out of Shanshampo hills the Russian  
soldiers realized that the town must  
fall and forgot all discipline. They  
looted the town, sparing neither Chi-  
nese nor European shops, destroying  
what they could not carry away. Much  
liquor was found, and the soldiers, be-  
coming drunk, committed further ex-  
cesses.

During the interim of the departure  
of the Russians and the arrival of the  
Japanese, the Chinese soldiers and  
police finished the work the Russians  
began, pillaged the shops that were  
not found by the Russians. Then  
when the Japanese came they com-  
pleted the looting. They had been  
fighting for five days without food ex-  
cept dry rice, and broke loose upon  
entering the town. The Japanese  
looted right and left.

The shops having already suffered,  
the Japanese turned their attention to  
the private houses. The wanted food  
principally, but overlooked nothing.  
This was the first time in this war  
that the Japanese were guilty of loot-  
ing a captured town and their officers  
were much disturbed by the outbreak.  
When order was restored the Japa-  
nese soldiers were taken out of the  
walled city and now are not allowed  
inside without a special pass.

## WILD RUMORS AFLOAT

ALEXIEFF TO RESIGN AND KURO-  
PATKIN TO BE REMOVED  
FROM HIS POST.

St. Petersburg, Sept. 13.—With the  
lull in military operations and an al-  
most entire suspension of dispatches  
from the front, St. Petersburg has  
again fallen back upon rumors. Count-  
less stories are afloat regarding the  
Russian defeat at Liaoyang, some of  
which are absolutely absurd, while  
others have apparently enough basis  
in fact to give them color of possibi-  
lity.

Of first importance is the revival of  
the rumor of Viceroy Alexieff's resig-  
nation, based probably upon differ-  
ences said to exist between him and  
General Kuropatkin and others in au-  
thority in the far East.

Of next importance is the rumor  
that General Kuropatkin is to be su-  
perseded, Lieutenant General Line-  
vitch being named as the most prob-  
able successor. This is supposed to  
rest upon the emperor's displeasure  
with Kuropatkin's generalship at Liao-  
yang and general dissatisfaction with  
the course of events at the front.

Neither Alexieff's nor Kuropatkin's  
friends seem to attach great impor-  
tance to the stories involving them.

## JAPANESE FORCES ADVANCE.

Oyama's Armies Continue in Pursuit  
of Russians.

Tokio, Sept. 13.—Marshal Oyama's  
forces are advancing by easy stages  
in pursuit of General Kuropatkin's  
rear guard south of the Hun river, on  
the road to Mukden. News of further  
Japanese successes in rear guard en-  
gagements Kuropatkin is waging  
against Marshal Oyama's troops was  
received Monday. Rains continue in  
the country through which the troops  
are operating and may delay not only  
Kuropatkin's retreat on Harbin, but  
the Japanese advance beyond Mukden.  
Marshal Oyama could throw any of his  
three generals—Kuroki, Nodzu or Oku  
—across the Hun river at one point or  
another to attack the Russian rear  
guard in a pitched battle. The prob-  
ability is, however, that the marshal  
will hold off until Kuropatkin's rear  
guard is north of Mukden, it being de-  
sirable for the Japanese to cross the  
Hun in strength before forcing an-  
other extensive engagement.

## Atlantic Wins Long Race.

New York, Sept. 13.—Wilson Mar-  
shall's three-masted schooner yacht  
Atlantic won the race for the Cape  
May cup which ended Monday. She  
finished at Sandy Hook lightship at  
3:58:16 a. m., having covered the  
220-mile course in 38 hours, 28 minutes  
and 6 seconds actual time. The En-  
dymion was second, the Vengemere  
withdrew.

## Floods Wipe Out a Town.

El Paso, Tex., Sept. 13.—Further  
particulars from Presidio del Norte,  
state that floods of the Rio Grande  
river Saturday and Sunday completely  
wiped away the town with the excep-  
tion of one house, and that is expect-  
ed to go momentarily. The water is  
four feet deep in the streets.

## JAPAN FILES PROTEST

DEMANDS THAT RUSSIAN WAR-  
SHIP LEAVE THE PORT OF  
SAN FRANCISCO.

## THE TIME LIMIT HAS EXPIRED

RUSSIAN VESSEL HAS ALREADY  
BEEN IN PORT LONGER THAN  
THE LAW ALLOWS.

Washington, Sept. 13.—The expect-  
ed protest of Japan against allowing  
the Russian cruiser Lena, which ar-  
rived in San Francisco Sunday, to re-  
main in that port more than the twen-  
ty-four hours allowed by international  
law, came Monday when the Japanese  
consul general at San Francisco made  
formal demand that the vessel be re-  
quired to leave at the end of that  
time. The collector of customs' tele-  
gram announcing the arriving of the  
Lena and the Japanese protest ar-  
rived together and copies were at  
once sent to Acting Secretary of State  
Adee and the department of com-  
merce and labor, who has jurisdiction  
in the matter. The telegram reads  
as follows:

"Japanese consul has made demand  
up me that the Russian auxiliary  
cruiser Lena, arriving at this port  
11th instant, leave within twenty-four  
hours. The captain reports that he  
has entered for repairs of engines and  
boilers, principally the latter. I am  
requesting the inspector of hulls and  
boilers to make an examination of ves-  
sel's machinery with consent of the  
Russian consul and the commander of  
the Lena. Can find no authority in  
law or regulations for this collector  
assuming any authority and request  
instructions."

After a conference with the com-  
missioner of navigation, Assistant  
secretary Murray sent the following  
message.

"Your telegram addressed to sec-  
retary of treasury regarding steam-  
ship Lena arrived at 4:30. You should  
have addressed this department, as di-  
rected in Circular 239. Wire this de-  
partment hour of arrival in your re-  
port and a concise account of steam-  
ship's damages, if repairs are neces-  
sary, the extent of such repairs. On  
receipt of information the department  
will instruct further."

The circular referred to was issued  
immediately after hostilities com-  
menced and besides containing the  
president's circular and provisions re-  
lating to neutrality, gave instructions  
to collectors that "should any case  
arise necessitating national action,  
you will report the facts to the depart-  
ment by telegraph."

## JAPANESE CONSUL PROTESTS.

Asks That Russian Ship Be Ordered  
to Leave Port.

San Francisco, Sept. 13.—No repre-  
sentative of the United States gov-  
ernment has yet boarded the Russian  
converted cruiser Lena, which arrived  
here Sunday, for the purpose of sub-  
stantiating the claims of Captain  
Berlinsky that the warship put in to  
this port solely for the reason that her  
boilers were in such condition as to  
render her absolutely unseaworthy.  
The Russian warship has now remain-  
ed in port long over the twenty-four  
hour limit and prominent members of  
the local Russian and Japanese colonies  
are evidencing great interest in  
what they are prone to designate as a  
"serious complication."

It has been learned that the United  
States Inspector of Hulls and Boilers  
John K. Bulger will leave Tuesday on  
the United States revenue cutter  
Hartley for the Lena. He will make  
a thorough inspection of her boilers  
and as soon as possible will submit a  
written report to Collector of the Port  
Stratton. Upon this report may de-  
pend whether or not the Lena is or-  
dered to put to sea or whether she will  
be allowed to remain until such time  
as the repairs deemed necessary may  
be made.

The Japanese were the first to be-  
stir themselves when they learned of  
the presence of the Russian ship.  
Prominent members of the Japanese  
colony called on the Japanese consul  
general and a long conference was  
held. A prominent Japanese said that  
at this session it was decided to have  
the Japanese consul call on Collec-  
tor Stratton and make the demand  
that the Lena

## Leave the Port Immediately.

Then in the event of the refusal  
of this request the consul general was  
advised to demand of Collector Strat-  
ton that he be allowed to be the sole  
judge of the fitness of the Russian  
cruiser to put to sea. In accordance  
with these plans the Japanese consul  
general called upon Collector Stratton  
Monday. The two gentlemen were  
closeted for an hour and a half. Nei-  
ther would disclose what had been said,  
but it was learned at times the discus-  
sion was most animated.

To the first demand that the Lena  
be ordered to leave within the twenty-  
four-hour limit Collector Stratton re-  
turned a curt refusal, and also de-  
clined to accede to the demand that  
Consul Nyeno be permitted to be the  
judge of the seaworthiness of the Rus-  
sian ship.

Later in the day Captain Berlinsky  
of the Lena, accompanied by the Rus-  
sian consul, Kosakivitch, called on Col-  
lector Stratton. Captain Berlinsky  
assured the collector that he would be  
most happy to acquiesce in any de-  
mand relative to an investigation of

the condition of his ship that the col-  
lector thought necessary. He carried  
with him duplicate copies of a some-  
what lengthy statement, one of which  
he sent to the Japanese consulate and  
the other to Admiral Goodrich, com-  
manding the American fleet now in  
this harbor. The contents of this  
statement were not made public, but  
it was known that the captain ex-  
plained why the Lena was in this port,  
just what repairs he deemed necessary  
to make his ship seaworthy and just  
how much coal he thought essential  
for him to take on board.

## TWO MEN KILLED IN WRECK.

Several Other Persons Injured and Big  
Locomotives Demolished.

Reno, Nev., Sept. 13.—Two men  
were killed and several passengers  
were injured Monday by a collision  
between Southern Pacific passenger  
trains at Lawton, seven miles west of  
Reno.

The dead are Fireman A. L. Hicks  
and an unknown man. Both were  
scalded to death.

All of the injured have been brought  
here and will recover.  
The second section of westbound  
train No. 5, while running at a speed  
of thirty-five miles an hour, crashed  
into the third section of eastbound  
train No. 6, carrying a large party of  
returning Knights Templars. Each  
train was a double-header with a heavy  
train of Pullmans and day coaches.  
All of the four engines are complete  
wrecks as well as the baggage and  
day coaches of both trains. The accident  
was due to disobedience of orders.

## MINNEAPOLIS GIRL SUICIDES.

Artists' Model Ends Her Life in Lake  
Michigan While Despondent.

Chicago, Sept. 13.—Sunday the body  
of a young woman, evidently about  
twenty-six years of age, was found  
floating in Lake Michigan near the  
clubhouse of the Chicago Yacht club.  
The woman in life had evidently pos-  
sessed refinement and intelligence and  
the police made extra effort to ascer-  
tain her identity and learned that the  
woman was Maud Wolcott, an artists'  
model, who came to this city from Min-  
neapolis some months ago. Letters  
and papers found in her trunk lead  
the police to believe that she grew  
weary of the uncertainty of her means  
of gaining a livelihood and took her  
life by throwing herself into the lake.

## WELCOMES PARLIAMENTARIANS.

F. B. Loomis Delivers an Address in  
Behalf of President Roosevelt.

St. Louis, Sept. 13.—The first ses-  
sion of the interparliamentary con-  
gress which convened in festival hall  
Monday was devoted to greeting the  
delegates. First Assistant Secretary  
of State F. B. Loomis delivered the ad-  
dress of welcome on behalf of the  
president of the United States. A  
long discussion followed, and then the  
delegates spent the remainder of the  
day in visiting the world's fair.

## FOUR PERSONS CREMATED.

Three Others Injured in a Fire in a  
New York Tenement.

New York, Sept. 13.—Four persons  
were burned to death and three were  
injured in a fire which destroyed the  
three floors of a tenement at 68-80  
First street Tuesday morning. Three  
of the victims were men and the  
fourth a woman. Their bodies were  
found by the firemen.

## French Duelist Wounded.

Paris, Sept. 13.—The notorious Max  
Regis, formerly mayor of Algiers and  
well known anti-Semite, slightly  
wounded M. Fontaine, a prominent  
sportsman, Monday, in a sword duel  
fought in the suburbs.

## RIOTING IN CHICAGO

SEVERAL PERSONS HURT IN AT-  
TACKS UPON NONUNION MEN  
AT STOCKYARDS.

Chicago, Sept. 13.—Two savage at-  
tacks were made upon nonunion work-  
ers at the stockyards Monday and in  
the fight that followed eight people  
were injured, four of them so serious-  
ly that it was necessary to take them  
to hospitals. At Halsted and Root  
streets, two young women were  
pounded over the heads, knocked down  
and badly beaten before the police ar-  
rived. One, Miss Annie Cook, was  
severely cut in the face and her shoul-  
der was injured and she was taken to  
the hospital. Miss Mamie Jasper was  
struck with a brick and her face and  
forehead were badly cut. It was  
found necessary to take her also to  
the hospital. Three policemen re-  
sued the women from the mob but it  
refused to disperse and continued to  
throw stones. A westbound car which  
happened to pass during the trouble  
was struck by several of the missiles  
and two of the passengers were  
struck, a woman being hit in the  
mouth with a brick and her front  
teeth knocked out.

Anton Asahura, a driver for a  
brewery, tried to drive through the  
crowd and was hit in the back of the  
head with a brick and knocked from  
his wagon. His scalp was badly cut.  
A call for help had been sent in and  
six officers soon arrived. The crowd  
soon scattered.

Ten minutes after the officers re-  
turned to the station they were called  
out to suppress a second riot in which  
seven colored men employed in the  
stockyards were attacked by a large  
crowd of strike sympathizers. John  
Sims, one of the colored men, was  
badly hurt.

## ARMED FRIENDS ON GUARD.

Would Prevent Capture of the Altman  
Brothers.

Atlanta, Ga., Sept. 13.—A special  
from Gunde, Ga., says a party of  
about fifty friends are standing guard  
with loaded Winchester around a  
house in Baxter county, Fla., in which  
are Charles Altman and Hillary Alt-  
man, two men who are accused of  
killing a negro and a white man on  
an excursion train near that place  
Sunday night. The friends of the Alt-  
mans say the sheriff or military will  
have to take them over their dead  
bodies. The two men killed were  
Jackson Duncan, a young white man,  
and Jim Riley, a negro. William Dun-  
can, the father of the man who was  
killed, was shot from ambush four  
times Monday. It is not known who  
did the shooting. It is reported that  
the military company from Jackson-  
ville has been ordered to the scene.  
The exact cause of the trouble on the  
train is not known.

## NEGROES DRIVEN OUT OF TOWN.

Race Feeling Becomes Intense at  
Carlisle, Ind.

Carlisle, Ind., Sept. 13.—Jasper  
Hammond, colored, while resisting ar-  
rest, was shot and seriously wounded  
by Constable Johnson. Hammond was  
trying to renew a quarrel with other  
negroes. At night a mob gathered and  
drove all the resident negroes out of  
town. Race feeling is intense and it  
is feared negroes having homes here  
will be compelled to leave. Hammond  
was taken to the Sullivan jail for safe  
keeping when threats of lynching  
were heard.

### AN UNTIRING WORKER.

Congressman Buckman is Identified with Developments of the District He Represents

It has been tritely said "Experience is the best teacher." The average business man or farmer if confronted with the necessity of solving a knotty legal problem or filling a contract for a large amount of cord wood would employ a lawyer of ripe experience or a sawyer, not a novice fresh from the academic halls of higher learning or a sweet voiced singer.

What is true of the individual's business is no less true of the public's business and sadly has experience taught the American voter the folly of entrusting his business to incompetent and inexperienced representatives in legislative and executive places of trust. The value of experience as a teacher is vividly brought home to the republicans of the Sixth congressional district. Two years ago by their votes they entrusted the representation of their affairs in congress to Hon. C. B. Buckman, of Little Falls, a trained legislator and man of public affairs. The wisdom of their choice is amply proved by the splendid accounting of their trust given by Mr. Buckman in the seventeen months since he assumed his duties as congressman. Mr. Buckman took up his duties as a

congressman equipped with the ripe experience of nearly a quarter of a century in service of his neighbors in the state's legislative bodies, and a cosmopolitan business training of a live time embracing an immediate and exact knowledge of the varied interests of the people he was chosen to represent. The fruits of this training coupled with unconquerable energy and indomitable perseverance were at once brought into play for the benefit of his constituents and with results that for a first term in Congress are nothing short of remarkable.

Mr. Buckman did not attempt to electrify nations with flights of spectacular oratory, nor win for himself a place among the country's spell binders, while his district jogged along as best it might. He did go to work to care for and promote the interests of the people sending him to Congress. He applied for and

secured a place on the committee on Indian affairs, in which a large number of the people of the district are vitally interested. The Mississippi river bisects the Sixth district and Mr. Buckman secured a place on the committee on Mississippi River improvements and levees, and in each instance he was placed as senior to all first term members on these committees, in direct and immediate line for promotion to the important post of chairman.

The Sixth district embraces one of the largest areas of public lands in the United States and almost before his term of office commenced Mr. Buckman found himself in a fight for the protection of the interests of his district, his vigorous prosecution of which and his victory, apparently unexpected by everyone but himself, made him known not alone at home, but in Washington as a member who would consent to no truce so long as his constituents' interests were at stake. The bitter fight for the United States land office now located at Cass Lake will long be one of the memorable struggles of the state's political history. Bemidji in the Ninth district wanted the office. Arrayed with the Bemidji promoters were Congressman Stevens and men best known in state and national affairs beside very large business interests. So great was the pressure that the President on his tour of the West was twice intercepted by men high up in the councils of his party and pleaded with in behalf of Bemidji. When the smoke of battle cleared away Buckman came out of the fight he waged single handed with two of the four United States land offices given to the state and today the citizens of Bemidji are endeavoring to devise ways and means to attach their county to Mr. Buckman's congressional district.

For years a dispute over 33,000 acres of railroad indemnity lands had dragged its weary way through the Department of the Interior. These lands were not taxed, unimproved and hundreds of bonafide settlers were deterred from making their homes in the district. One of Mr. Buckman's first acts was to insist that the matter should be passed upon and his insistence resulted in a decision being handed down by Judge Vandeventer, then Attorney General for the Interior Department and soon after elevated to the United States bench by President Roosevelt. This decision made it possible to get these lands in the hands of settlers, make them productive and share their burden of taxation.

Mr. Buckman came to Minnesota and the district he now represents when little more than a boy, when much of the vast area now dotted by fertile fields, substantial farm houses and populous towns and villages was untracked forest, the hunting ground of the Indians. He was one of the pioneer homesteaders in Morrison county and that homestead is the nucleus of the Buckman farm of nearly 1,000 acres, which Mr. Buckman still finds time to give his personal supervision. As with the promotion of farming Mr. Buckman has been identified with nearly if not all the enterprises that have developed the district. He is no stranger to the needs of any of its citizens, nor transient office seeker. In his every official act as Congressman the good of the district and its people has been uppermost. No problem affecting the district has been too large for him to cope with, no request of the humblest settler too trivial to receive his prompt and effective consideration.

By dint of his insistent and untiring effort the rural free mail service in the district has been quadrupled in less than a year and a half. Scores of Veterans of the Civil and Spanish American wars have received pensions through his prosecution of their cases and special Congressional Acts passed by him. Residents of the district have secured employment aggregating in wages about \$100,000 per annum through his efforts. Commercial and manufacturing development is made possible by virtue of laws passed by him.

In short the experience of a little more than one year has taught the citizens of the Sixth district that in Mr. Buckman they have a representative at Washington whose intelligent effort has produced remarkable results. A servant of the people who believes in results rather than empty promises, and who as a first term has set a pace as unusual as it has been fruitful.

The experience he has gained will make him a more valuable member as a second term and the prestige of a second term will give him a standing among his colleagues and with the Departments that will enable the district to reap still more plentifully the results of his energies.—Little Falls Transcript.

### SHOOTS AND KILLS HIS WIFE.

Milwaukee Man Then Vainly Tries to End His Own Life.

Milwaukee, Sept. 13.—William Nott, aged twenty-five, an employee of a hotel, shot and killed his wife, Hazel, twenty-three, Monday, and later attempted suicide by stabbing himself. The couple became involved in a quarrel and the shooting followed, Mrs. Nott being struck three times. Nott stabbed himself with a pocket knife as he was being taken into custody. He will recover.

### Chicago Man Murdered.

Chicago, Sept. 13.—Henry Peterson, a tobacco dealer, at Lake and Roby streets, was murdered Monday night by one of two men who entered his place with the intention of robbing him. The men robbed the place of about \$30 and made their escape.

### AN UNTIRING WORKER.

Congressman Buckman is Identified with Developments of the District He Represents

It has been tritely said "Experience is the best teacher." The average business man or farmer if confronted with the necessity of solving a knotty legal problem or filling a contract for a large amount of cord wood would employ a lawyer of ripe experience or a sawyer, not a novice fresh from the academic halls of higher learning or a sweet voiced singer.

What is true of the individual's business is no less true of the public's business and sadly has experience taught the American voter the folly of entrusting his business to incompetent and inexperienced representatives in legislative and executive places of trust. The value of experience as a teacher is vividly brought home to the republicans of the Sixth congressional district. Two years ago by their votes they entrusted the representation of their affairs in congress to Hon. C. B. Buckman, of Little Falls, a trained legislator and man of public affairs. The wisdom of their choice is amply proved by the splendid accounting of their trust given by Mr. Buckman in the seventeen months since he assumed his duties as congressman. Mr. Buckman took up his duties as a

congressman equipped with the ripe experience of nearly a quarter of a century in service of his neighbors in the state's legislative bodies, and a cosmopolitan business training of a life time embracing an immediate and exact knowledge of the varied interests of the people he was chosen to represent. The fruits of this training coupled with unconquerable energy and indomitable perseverance were at once brought into play for the benefit of his constituents and with results that for a first term in Congress are nothing short of remarkable.

Mr. Buckman did not attempt to electrify nations with flights of spectacular oratory, nor win for himself a place among the country's spell binders, while his district jogged along as best it might. He did go to work to care for and promote the interests of the people sending him to Congress. He applied for and

secured a place on the committee on Indian affairs, in which a large number of the people of the district are vitally interested. The Mississippi river bisects the Sixth district and Mr. Buckman secured a place on the committee on Mississippi River improvements and levees, and in each instance he was placed as senior to all first term members on these committees, in direct and immediate line for promotion to the important post of chairman.

The Sixth district embraces one of the largest areas of public lands in the United States and almost before his term of office commenced Mr. Buckman found himself in a tight for the protection of the interests of his district, his vigorous prosecution of which and his victory, apparently unexpected by everyone but himself, made him known not alone at home, but in Washington as a member who would consent to no truce so long as his constituents' interests were at stake. The bitter fight for the United States land office now located at Cass Lake will long be one of the memorable struggles of the state's political history. Bemidji in the Ninth district wanted the office. Arrayed with the Bemidji promoters were Congressman Stevens and men best known in state and national affairs beside very large business interests. So great was the pressure that the President on his tour of the West was twice intercepted by men high up in the councils of his party and pleaded with in behalf of Bemidji. When the smoke of battle cleared away Buckman came out of the fight he waged single handed with two of the four United States land offices given to the state and today the citizens of Bemidji are endeavoring to devise ways and means to attach their county to Mr. Buckman's congressional district.

For years a dispute over 33,000 acres of railroad indemnity lands had dragged its weary way through the Department of the Interior. These lands were not taxed, unimproved and hundreds of bonafide settlers were deterred from making their homes in the district. One of Mr. Buckman's first acts was to insist that the matter should be passed upon and his insistence resulted in a decision being handed down by Judge Vandever, then Attorney General for the Interior Department and soon after elevated to the United States bench by President Roosevelt. This decision made it possible to get these lands in the hands of settlers, make them productive and share their burden of taxation.

Mr. Buckman came to Minnesota and the district he now represents when little more than a boy, when much of the vast area now dotted by fertile fields, substantial farm houses and populous towns and villages was untracked forest, the hunting ground of the Indians. He was one of the pioneer homesteaders in Morrison county and that homestead is the nucleus of the Buckman farm of nearly 1,000 acres, which Mr. Buckman still finds time to give his personal supervision. As with the promotion of farming Mr. Buckman has been identified with nearly if not all the enterprises that have developed the district. He is no stranger to the needs of any of its citizens, nor transient office seeker. In his every official act as Congressman the good of the district and its people has been uppermost. No problem affecting the district has been too large for him to cope with, no request of the humblest settler too trivial to receive his prompt and effective consideration. By dint of his insistent and untiring effort the rural free mail service in the district has been quadrupled in less than a year and a half. Scores of Veterans of the Civil and Spanish American wars have received pensions through his prosecution of their cases and special Congressional Acts passed by him. Residents of the district have secured employment aggregating in wages about \$100,000 per annum through his efforts. Commercial and manufacturing development is made possible by virtue of laws passed by him.

In short the experience of a little more than one year has taught the citizens of the Sixth district that in Mr. Buckman they have a representative at Washington whose intelligent effort has produced remarkable results. A servant of the people who believes in results rather than empty promises, and who as a first term has set a pace as unusual as it has been fruitful.

The experience he has gained will make him a more valuable member as a second term and the prestige of a second term will give him a standing among his colleagues and with the Departments that will enable the district to reap still more plentifully the results of his energies.—Little Falls Transcript.

### A CLASS OF 200 TO BE CONFIRMED

A Large Class of Children to be Confirmed Sunday Morning at St. Francis' Church

### BISHOP MCGOLDRICK TO BE HERE

Rev. Father D. W. Lynch will be Assisted by Several Other Well Known Priests.

Two hundred Brainerd children will be confirmed at 10:30 o'clock next Sunday morning at St. Francis' Catholic church, one of the largest classes in the history of the Brainerd parish.

Rev. D. W. Lynch will be assisted in the services by Bishop McGoldrick, of Duluth, who will preach at the 10:30 and 7:30 o'clock services. Others who will assist will be Father Floyd, of Duluth, Rev. D. Patt, of St. Paul's seminary and Father Anselm, O. S. B., of St. John's university.

Solemn high mass will be celebrated at 10:30 o'clock with Father Floyd as the celebrant, Father Anselm as deacon, Father Patt as sub-deacon and Rev. Father Lynch as master of ceremonies.

The services both morning and evening will be very impressive and the event will be one of the important epochs in the history of St. Francis' church in this city.

Don't delay a minute. Cholera, infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

### FROST DID MUCH DAMAGE

Corn and Vegetables Were Badly Nipped Night Before Last in Many Places.

Reports from the surrounding country show that the frost night before last was much more severe than appearances here in town would indicate. Up around Cross Lake and Emily there were many fields of corn that ten days ago promised fine crops that will be comparatively worthless. The cold weather of the past fortnight has so retarded their growth that it was severely damaged by the frost Sunday night, which was much heavier there than here. Tomatoes and other tender vegetables were cut down and the corn showed the effects very decidedly. How large a per cent of it will mature is a question, but much of it will make but poor feed.

## FOR SUNDAY BAND CONCERTS

Scheme for Sunday Afternoon Sacred Concerts to be Given by the Elk Band

### BAND IS TO BE STRENGTHENED

Vocalists of Note to Assist in the Concerts if Plans are Carried Out.

The Elk band has plans on foot which, if they mature, will give Brainerd a series of very fine Sunday afternoon concerts. The plan of Band Master Sykora is to give a semi-sacred concert in the opera house each Sunday afternoon. It is the intention to give a mixed concert and the best vocalists of the city and musicians of note from out of town will be asked to assist. For this purpose the band will be greatly strengthened. Two clarinet players of note, who were with the famous 51st Iowa band have been secured and will soon arrive in Brainerd to take positions and to assist the band.

The plan of Sunday afternoon concerts was suggested to Mr. Sykora about a year ago by C. P. Walker, proprietor of the Red River Valley theatre circuit, who says they have been carried on with success in the other opera houses of the circuit.

It is thought that with popular prices, twenty-five cents down, good audiences could be secured and the concerts made a success.

The Elk band has given a very enjoyable series of free concerts in the park the past summer and it is believed that a large number of our people would readily pay a small sum for the pleasure of listening to a fine concert of a Sunday afternoon.

### CONFERENCE UNDER WATER.

How This First Essential in Swimming May Be Acquired.

A person who is timid about the water can overcome the greatest part of the difficulty of learning to swim by the proper use of a wash basin.

The obstacle that nervous persons meet in the water is not the conscious fear of drowning, but an involuntary nervous shock that causes them to gasp for air even before their faces are under water. It is this gasping for breath that drowns people.

They cannot control the gasping, and consequently they often snap for breath when their mouths are under water. As the buoyancy of a human body is easily disturbed, a few plates or quarts of water swallowed in these involuntary gasping acts serve to sink a person who otherwise would float long enough for help to arrive.

Now, if a person afflicted with this involuntary fear of getting under water will thrust the whole face gently into an ordinary basin full of water every day and stay there as long as possible it will be only a short time before the gasping sensation begins to disappear.

Then the bathtub should be used, so that the bather, lying full length, can immerse the entire head. At first this will bring back all the old frightening sensations of suffocation, but the attacks will be of short duration, and within a few days it will be found that the total immersion can be maintained for almost a full minute without discomfort of any kind.

Once a person has learned how perfectly comfortable one can be under water the first great step has been taken toward learning to swim.

Many otherwise good swimmers have never really acquired this calmness under water. The result is that when such a swimmer is caught in an undertow or a swirling current his confidence leaves him as soon as he feels himself dragged under the surface. Instead of diving or remaining motionless and so preserving his breath he gasps involuntarily and naturally swallows water, and the choking sensation at once forces him to exhale what breath he has left and gasp again.

Confidence under water should be the first lesson in swimming.

### Duty, Then Pleasure.

Mr. Nasmyth, the inventor of the steam hammer, once said: "If I were to try to compress into one sentence the whole of the experience of an active and successful life and offer it to young men as a rule and certain recipe for success in any station, it would be comprised in this: 'Duty first; pleasure second.' From what I have seen of young men and their after progress I am satisfied that what is generally termed 'bad fortune,' 'ill luck' and 'misfortune' is in nine cases out of ten simply the result of inverting this simple maxim. My own experience convinces me that absence of success arises in the great majority of cases from want of self denial and want of common sense. The worst maxim of all maxims is, 'Pleasure first; work and duty second.'"

### Rather.

"Would you permit your daughter to marry a titled rone?" asked Mrs. Oldcastle.

"I don't know," replied the hostess. "Do the Roveys belong to a very old family?"—Exchange.

## MUSIC AND DRAMA.

"A FRIEND OF THE FAMILY" TONIGHT.

Those who miss seeing "A Friend of the Family" tonight at the Brainerd opera house will miss a show which guarantees more laughs in two hours and a half than has ever been squeezed into twice that length of time. The play, the artists, the costumes, the stage settings and other environments all combine to make this production one of the most elaborate comedies on the road. The company includes for principals: William Friend, Harry Crandall, Eugene Redding, William Woodside, Thias Magrane, Theodora Dudley, Helen Travers, Violette Villiers, Lucile Villiers, Carroll Hamilton and others.

The Duluth News-Tribune this morning hands the performance this very nice notice, the company having appeared at the Lyceum in that city last night:

"'A Friend of the Family' was happily met at the Lyceum last evening. The piece is very attractive, and comic situations follow one another with feverish haste through its entire length. The company is well cast. Miss Thias Magrane, who played the role of Nancy Noyes, is a winsome comedienne, good looking, and chic and spritely. William Friend is an artist among comedians, clever and laugh provoking in every eccentric gesture and acrobatic move."

A little life may be sacrificed to a sudden attack of croup if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

### BAD ACCIDENT AT AITKIN

Explosion in a Bicycle Shop Does Considerable Damage and Two are Quite Seriously Injured.

A powder explosion in the bicycle shop of Nelson Bros. at Aitkin blew the front out of the building and otherwise damaged it. Two persons were severely injured.

J. Walter James, a balloonist, who was to make an ascension for the county fair, was constructing a mammoth rocket which he proposed to use instead of a balloon to elevate himself and his parachute. A piece of boiler flue was being used for a shell and while putting eight pounds of powder into this the explosion occurred. James is terribly burned, and it is feared may lose his sight, and a young son of James O'Neill, who was struck by the flying shell, was so badly injured that he may die.

Contractor Peterson Completes Work in an Efficient and Workmanlike Manner and it is Turned Over.

The Mahlum block, one of the handsomest in the city, has been completed and has been turned over by Contractor Chas. Peterson to the Mahlum lumber company. Mr. Peterson has again demonstrated his ability in the building line and the mason work throughout is an example of completeness and thoroughness. He had complete charge of this work, even to the furnishing of the material. Mr. Peterson is now hustling the work on the new Imperial block which will also be rushed to completion before snow flies.

### A CLASS OF 200 TO BE CONFIRMED

A Large Class of Children to be Confirmed Sunday Morning at St. Francis' Church

BISHOP MCGOLTRICK TO BE HERE

Rev. Father D. W. Lynch will be Assisted by Several Other Well Known Priests.

Two hundred Brainerd children will be confirmed at 10:30 o'clock next Sunday morning at St. Francis' Catholic church, one of the largest classes in the history of the Brainerd parish.

Rev. D. W. Lynch will be assisted in the services by Bishop McGoltrick, of Duluth, who will preach at the 10:30 and 7:30 o'clock services. Others who will assist will be Father Floyd, of Duluth, Rev. D. Patt, of St. Paul's seminary and Father Anselm, O. S. B., of St. John's university.

Solemn high mass will be celebrated at 10:30 o'clock with Father Floyd as the celebrant, Father Anselm as deacon, Father Patt as sub-deacon and Rev. Father Lynch as master of ceremonies. The services both morning and evening will be very impressive and the event will be one of the important epochs in the history of St. Francis' church in this city.

Don't delay a minute. Cholera, infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

### FROST DID MUCH DAMAGE

Corn and Vegetables Were Badly Nipped Night Before Last in Many Places.

Reports from the surrounding country show that the frost night before last was much more severe than appearances here in town would indicate. Up around Cross Lake and Emily there were many fields of corn that ten days ago promised fine crops that will be comparatively worthless. The cold weather of the past fortnight has so retarded their growth that it was severely damaged by the frost Sunday night, which was much heavier there than here. Tomatoes and other tender vegetables were cut down and the corn showed the effects very decidedly. How large a per cent of it will mature is a question, but much of it will make but poor feed.

## FOR SUNDAY BAND CONCERTS

Scheme for Sunday Afternoon Sacred Concerts to be Given by the Elk Band

BAND IS TO BE STRENGTHENED

Vocalists of Note to Assist in the Concerts if Plans are Carried Out.

The Elk band has plans on foot which, if they mature, will give Brainerd a series of very fine Sunday afternoon concerts. The plan of Band Master Sykora is to give a semi-sacred concert in the opera house each Sunday afternoon. It is the intention to give a mixed concert and the best vocalists of the city and musicians of note from out of town will be asked to assist. For this purpose the band will be greatly strengthened. Two clarinet players of note, who were with the famous 51st Iowa band have been secured and will soon arrive in Brainerd to take positions and to assist the band.

The plan of Sunday afternoon concerts was suggested to Mr. Sykora about a year ago by C. P. Walker, proprietor of the Red River Valley theatre circuit, who says they have been carried on with success in the other opera houses of the circuit.

It is thought that with popular prices, twenty-five cents down, good audiences could be secured and the concerts made a success.

The Elk band has given a very enjoyable series of free concerts in the park the past summer and it is believed that a large number of our people would readily pay a small sum for the pleasure of listening to a fine concert of a Sunday afternoon.

CONFIDENCE UNDER WATER.

How This First Essential in Swimming May Be Acquired.

A person who is timid about the water can overcome the greatest part of the difficulty of learning to swim by the proper use of a wash basin.

The obstacle that nervous persons meet in the water is not the conscious fear of drowning, but an involuntary nervous shock that causes them to gasp for air even before their faces are under water. It is this gasping for breath that drowns people.

They cannot control the gasping, and consequently they often snap for breath when their mouths are under water. As the buoyancy of a human body is easily disturbed, a few pints or quarts of water swallowed in these involuntary gasping acts serve to sink a person who otherwise would float long enough for help to arrive.

Now, if a person afflicted with this involuntary fear of getting under water will thrust the whole face gently into an ordinary basin full of water every day and stay there as long as possible it will be only a short time before the gasping sensation begins to disappear.

Then the bathtub should be used, so that the bather, lying full length, can immerse the entire head. At first this will bring back all the old frightening sensations of suffocation, but the attacks will be of short duration, and within a few days it will be found that the total immersion can be maintained for almost a full minute without discomfort of any kind.

Once a person has learned how perfectly comfortable one can be under water the first great step has been taken toward learning to swim.

Many otherwise good swimmers have never really acquired this calmness under water. The result is that when such a swimmer is caught in an undertow or a swirling current his confidence leaves him as soon as he feels himself dragged under the surface. Instead of diving or remaining motionless and so preserving his breath he gasps involuntarily and naturally swallows water, and the choking sensation at once forces him to exhale what breath he has left and gasp again.

Confidence under water should be the first lesson in swimming.

### Duty, Then Pleasure.

Mr. Nasmyth, the inventor of the steam hammer, once said: "If I were to try to compress into one sentence the whole of the experience of an active and successful life and offer it to young men as a rule and certain recipe for success in any station, it would be comprised in this: 'Duty first; pleasure second.'" From what I have seen of young men and their after progress I am satisfied that what is generally termed 'bad fortune,' 'ill luck' and 'misfortune' is in nine cases out of ten simply the result of inverting this simple maxim. My own experience convinces me that absence of success arises in the great majority of cases from want of self denial and want of common sense. The worst maxim of all maxims is, 'Pleasure first; work and duty second.'

## MUSIC AND DRAMA.

"A FRIEND OF THE FAMILY" TONIGHT.

Those who miss seeing "A Friend of the Family" tonight at the Brainerd opera house will miss a show which guarantees more laughs in two hours and a half than has ever been squeezed into twice that length of time. The play, the artists, the costumes, the stage settings and other environments all combine to make this production one of the most elaborate comedies on the road. The company includes for principals: William Friend, Harry Crandall, Eugene Redding, William Woodside, Thias Magrane, Theodora Dudley, Helen Travers, Violette Villiers, Lucile Villiers, Carroll Hamilton and others.

The Duluth News-Tribune this morning hands the performance this very nice notice, the company having appeared at the Lyceum in that city last night:

"A Friend of the Family" was happily met at the Lyceum last evening. The piece is very attractive, and comic situations follow one another with feverish haste through its entire length. The company is well cast. Miss Thias Magrane, who played the role of Nancy Noyes, is a winsome comedienne, good looking, and chic and spritely. William Friend is an artist among comedians, clever and laugh provoking in every eccentric gesture and acrobatic move."

A little life may be sacrificed to a sudden attack of croup if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

A powder explosion in the bicycle shop of Nelson Bros. at Aitkin blew the front out of the building and otherwise damaged it. Two persons were severely injured.

J. Walter James, a balloonist, who was to make an ascension for the county fair, was constructing a mammoth rocket which he proposed to use instead of a balloon to elevate himself and his parachute. A piece of boiler flue was being used for a shell and while putting eight pounds of powder into this the explosion occurred. James is terribly burned, and it is feared may lose his sight, and a young son of James Oneill, who was struck by the flying shell, was so badly injured that he may die.

**BUSINESS BLOCKS BURNED.**

One Section of an Idaho City Wiped Out by Fire.

Idaho Falls, Ida., Sept. 13.—Almost every business block in this city was wiped out by a fire that started in the Butte cafe and which burned seven hours. The loss will reach \$200,000, with small insurance.

Fanned by the wind that blew almost hurricane velocity the fire swept down Broadway, the principal business street, destroying every building for nearly seven blocks. The fire was confined to the business district, no residences being destroyed.

## THE RESULT IN MAINE

THE REPUBLICAN CANDIDATE FOR GOVERNOR CARRIES THE STATE.

GAINS MADE BY BOTH SIDES

DEMOCRATS MADE A HARD FIGHT TO CUT DOWN REPUBLICAN PLURALITY.

Portland, Me., Sept. 13.—The Republicans Monday carried the state for W. T. Cobb of Rockford, Republican candidate for governor, by a plurality of about 30,000 over Cyrus W. Davis of Waterville, his Democratic opponent. The complete returns will not be received for several days, but 300 out of 522 cities and towns give Cobb 59,000, Davis 38,000. The same places in 1900 gave Hill, Rep., 51,000; Lord, Dem., 29,000. These returns show a Republican gain of about 5 per cent and a Democratic gain of about 31 per cent. All four Republican candidates for congress, Amos L. Allen, Charles E. Littlefield, E. C. Burleigh and Jewell Powers were also returned, and a Republican majority in the legislature was assured.

The Republican party was also successful in many county contests, of which there were more than the usual number.

While the various county contests were bitter and hard fought, general interest was fixed upon the probable plurality for Mr. Cobb, the Republican candidate, the Democrats aiming to reduce it below the 33,000 of 1900 and the Republicans determined to prevent a falling off.

FAIRBANKS VISITS ROOSEVELT.

Republican Vice Presidential Candidate at Sagamore Hill.

Oyster Bay, N. Y., Sept. 13.—Senator C. W. Fairbanks of Indiana, Republican candidate for vice president, is a guest of President Roosevelt at Sagamore Hill. He arrived Monday. Senator Fairbanks said he had been on the move almost constantly since he had come East, and thus far the campaign work has been agreeable. His health is good. He declined to detail his political observations, but said so far as he could ascertain the situation was quite satisfactory from his point of view. The senator said his visit to the president was of personal rather than public interest. They were discussing questions on which he might not see the president again. The senator will leave here Tuesday. He will speak at Wilmington and Dover, Del., Baltimore and perhaps at some other places and on Sept. 21 will leave for the West to take an active part in the campaign there.

During their conference at Sagamore Hill, the president and Senator Fairbanks received returns from the election in Maine.

TAKEN UNDER ADVISEMENT.

Motion to Dismiss All Cases Against Former Mayor Ames.

Minneapolis, Sept. 13.—Before Judge A. M. Harrison during the day County Attorney F. H. Boardman moved to nolle all the bribery and corruption indictments, ten in all, standing against former Mayor A. A. Ames. Mr. Boardman explained that owing to the death and removal of witnesses and other reasons it would be impossible to obtain a conviction and to press the charges further would involve a waste of time and money. Mr. Boardman gave as a further reason the fact that additional trials would "give an offensive advertisement to our city."

Dr. Ames was convicted in the lower court on one charge, but the supreme court reversed the finding and sent the case back for retrial.

Judge Harrison took the motion under advisement.

DEMOCRATIC LEADERS CONFER.

Hold a Long Session at National Headquarters in New York.

New York, Sept. 13.—There was a conference of national leaders at the national Democratic headquarters which lasted during the greater part of the day. Among those present were Henry G. Davis, the vice presidential candidate, Chairman Taggart, August Belmont, William F. Sheehan, James K. Jones, D. J. Campan of Michigan, James H. Hogg of Texas, John G. Carlisle, Thomas F. Ryan and James M. Guffey of Pennsylvania.

The King of Bardsey.

About a mile distant from the rocky promontory of Barclay-Pwll, the extreme westerly point of north Wales, lies the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the third baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king." Selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his vicegerent's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

## TWO COLLAPSE HEAT.

Bulls on the Chicago Board of Trade Predict That Price.

Chicago, Sept. 13.—"Wheat at \$2 a bushel before next May," was roared by the bulls during the day on the board of trade. At the opening of the market there was an excited demand for wheat, with few traders venturing to sell. The price for May delivery was from \$1.11½ to \$1.12 and for delivery for the present month from \$1.07½ to \$1.08. Those who wished to buy shouted bids of 2 cents a bushel above the prices prevailing at the close of the market the previous day and the quantity that any one would sell even at such a tempting advance was extremely limited.

The agricultural bureau at Washington, through information furnished by its army of crop reporters scattered throughout every wheat growing county in the country, issued a report that, according to the bulls, confirmed the worst fears regarding the lamentable loss to the spring wheat crop by the black rust.

DIFFICULTIES GROW ACUTE.

Serious Trouble Likely Between the French and Colonial Fishermen.

St. John's, N. B., Sept. 13.—The difficulties between French and colonial fishermen on the French shore are daily growing more acute. On Saturday a British warship on the demand of the French commodore, stopped a party of colonial lobster catchers there. On Friday, on the fishing banks, fourteen men, armed with knives, from a French fishing vessel which had previously disguised her name with a piece of sail cloth, boarded a colonial vessel and carried off her whole stock of bait.

In another section a French vessel deliberately ran down and nearly sank a colonial fish smack.

Grave apprehension is felt respecting these outrages. British warships will be asked to punish the offenders.

TELEGRAPHIC BRIEVITIES.

The International Electrical congress convened Monday at St. Louis.

Louise Sterling, alias Cleo Page, committed suicide at St. Paul Monday night by taking carbolic acid while despondent.

Major Charles H. Gardner of Watertown, Wis., aged sixty-two years, was found drowned in La Belle lake, Oconomowoc, Monday.

Secretary of the Treasury Shaw addressed a large audience at Denver Monday night. He touched on all the issues of the campaign.

Anti-Jewish disturbances occurred Sunday at the frontier town of Sosnowice, Russian Poland, on the occasion of the celebration of the Jewish new year.

C. G. Bloomquist, a Minneapolis grocer, was shot in the hand by a man who tried to hold him up Monday night. Bloomquist had \$1,000 in his possession, but retained it.

The thirty-two barns on the livestock grounds are overtaxed by the 2,400 entries for the St. Louis world's fair cattle show, which commenced Monday to continue until Sept. 24.

John M. Biegler, a young lawyer, was found dead in his office at Chicago Monday. A revolver shot through the temple had ended his life, and the police declare that he committed suicide.

## NEW ZEALAND GEYSERS.

Among Them Is Said to Be the Biggest Spouter in the World.

Yellowstone park is reputed to have the most magnificent geysers in the world, but their reputation is based upon the statements of travelers who have never been to New Zealand and who know nothing of its natural wonders.

Leaving Auckland by a fast express train, a journey of eight hours brings one to Rotorua, where may be seen the most splendid geyser which is probably to be found anywhere in the world. To give one some idea of the magnitude of the geyser I need mention only the height of some of the surrounding objects. Over the "Inferno crater," which contains a seething lake of water, is a small shelter shed 450 feet above the plain. The surface of the water in the geyser basin when at rest is about forty feet below this plain. The height of the eruption must often be about 900 feet. This is by no means exceptional. Higher "shots" have been recorded. I have myself seen a shot computed at 1,200 feet. Some months ago the area of the basin was measured in a small boat by a Mr. Buckridge and a guide. They found that the area is about two and a half acres, from which it may be inferred that this geyser may well be called the largest in the world.

The geyser plays about twenty-two times each month, is very erratic and gives no warning when it is about to erupt. The theory is advanced that the basin is somewhat like a funnel and that when the water and stones are ejected the larger stones return and jam in the neck, thereby choking the outlet, so that an enormous pressure of steam must shift them. When the pressure is sufficiently great to blow out the obstructions it naturally would eject water to a great height. The theory, however, is at best rather fanciful.

This geyser is not the only one to be seen in the vicinity. Others may be mentioned, such as the Pohutu, Wairoa, Feather, Papakura and others, besides mud volcanoes.—Scientific American.

## ASIATIC TIGER PROVERBS.

A tiger's meal—a gluttonous repast.  
To face the tiger in his lair—great bravery.

A winged tiger—cunning added to power and ability.

After the Chinese the tigers—total devastation of a country.

A tiger of wood—a harmless being with a dangerous exterior.

To bring up a tiger and have him turn upon you—ingratitude.

"Mangohu," a man eater—a person with an ungovernable temper.

A tiger with a broken back—rage and fury which are powerless.

To let go the tail of a tiger—to avoid one danger and encounter another.

To turn from a deer and meet a tiger—the danger of too much caution.

Devoured by a tiger—said of a man who wishes to be concealed from his creditors.

You must enter the tiger's den if you would secure a cub—what is worth having is not procured without risk and trouble.—Washington Post.

## Indians With Jewish Blood.

Sir Alexander Mackenzie had an idea that the Indians of the far northwest were partly Jewish in origin. From Lake Athabasca in 1794 he set out at the head of an expedition "in a birch bark canoe twenty-five feet long, four and three-quarters feet beam and twenty-six inches hold, with 3,000 pounds of baggage and provisions and a crew of nine French Canadians. He reached the Pacific coast and returned. The aborigines he met were "for the most part possessed of strongly religious instincts," said he in his report. "With regard to their origin, all we are prepared to state after a careful survey of their languages, manners and customs is that they are undoubtedly of a mixed origin; come from the north-northwest and had commerce in their early history perhaps through intermarriage with people of Jewish persuasion or origin."

## Heine's Sense of Humor.

Heine's sense of humor did not leave him until the last. A few days before his death Hector Berlioz called on him just as a tiresome German professor was leaving after worrying him with his uninteresting conversation. "I am afraid you will find me very stupid, my dear fellow," he said. "The fact is I have just been exchanging thoughts with Dr. —"

On one occasion when the doctor was examining his chest he asked him, "Can you whistle?" He replied, "Alas, no; not even the pieces of M. Scribe."

## Made a Lock For the Key.

An old and curious key and lock are attached to the door of Temple church in Fleet street, London. The key weighs seven pounds, is eighteen inches long, and unlike other keys, it was not made for the lock. On the contrary, the lock was made for it. Both key and lock have been in use since the crusades, the church itself having been built by the Knights Templars in 1485.—London Standard.

## Inconsistent.

"She is the most inconsistent woman I ever saw."

## What Is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results, irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly re-adjust this. It's gentle, yet thorough. Only 25c at H. P. Dunn & Co.'s drug store.

## Strength.

## Fearful Odds Against Him.

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitter. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50¢. Guaranteed by H. P. Dunn & Co., druggists.

THE REPUBLICAN CANDIDATE FOR GOVERNOR CARRIES THE STATE.

**GAINS MADE BY BOTH SIDES**

DEMOCRATS MADE A HARD FIGHT TO CUT DOWN REPUBLICAN PLURALITY.

Portland, Me., Sept. 13.—The Republicans Monday carried the state for W. T. Cobb of Rockford, Republican candidate for governor, by a plurality of about 30,000 over Cyrus W. Davis of Waterville, his Democratic opponent. The complete returns will not be received for several days, but 300 out of 522 cities and towns give Cobb 59,000, Davis 38,000. The same places in 1900 gave Hill, Rep., 51,000; Lord, Dem., 29,000. These returns show a Republican gain of about 5 per cent and a Democratic gain of about 31 per cent. All four Republican candidates for congress, Amos L. Allen, Charles E. Littlefield, E. C. Burleigh and Llewellyn Powers were also returned, and a Republican majority in the legislature was assured.

The Republican party was also successful in many county contests, of which there were more than the usual number.

While the various county contests were bitter and hard fought, general interest was fixed upon the probable plurality for Mr. Cobb, the Republican candidate, the Democrats aiming to reduce it below the 33,000 of 1900 and the Republicans determined to prevent a falling off.

**FAIRBANKS VISITS ROOSEVELT.**  
Republican Vice Presidential Candidate at Sagamore Hill.

Oyster Bay, N. Y., Sept. 13.—Senator C. W. Fairbanks of Indiana, Republican candidate for vice president, is a guest of President Roosevelt at Sagamore Hill. He arrived Monday. Senator Fairbanks said he had been on the move almost constantly since he had come East and thus far the campaign work has been agreeable. His health is good. He declined to detail his political observations, but said so far as he could ascertain the situation was quite satisfactory from his point of view. The senator said his visit to the president was of personal rather than public interest. They were discussing questions on which he might not see the president again. The senator will leave here Tuesday. He will speak at Wilmington and Dover, Del. Baltimore and perhaps at some other places and on Sept. 21 will leave for the West to take an active part in the campaign there.

During their conference at Sagamore Hill, the president and Senator Fairbanks received returns from the election in Maine.

**TAKEN UNDER ADVISEMENT.**  
Motion to Dismiss All Cases Against Former Mayor Ames.

Minneapolis, Sept. 13.—Before Judge A. M. Harrison during the day County Attorney F. H. Boardman moved to nolle all the bribery and corruption indictments, ten in all, standing against former Mayor A. A. Ames. Mr. Boardman explained that owing to the death and removal of witnesses and other reasons it would be impossible to obtain a conviction and to press the charges further would involve a waste of time and money. Mr. Boardman gave as a further reason the fact that additional trials would "give an offensive advertisement to our city."

Dr. Ames was convicted in the lower court on one charge, but the supreme court reversed the finding and sent the case back for retrial.

Judge Harrison took the motion under advisement.

**DEMOCRATIC LEADERS CONFER.**  
Hold a Long Session at National Headquarters in New York.

New York, Sept. 13.—There was a conference of national leaders at the national Democratic headquarters which lasted during the greater part of the day. Among those present were Henry G. Davis, the vice presidential candidate, Chairman Taggart, August Belmont, William F. Sheehan, James K. Jones, D. J. Campana of Michigan, James H. Hogg of Texas, John G. Carlisle, Thomas F. Ryan and James M. Guffey of Pennsylvania.

**The King of Bardsey.**  
About a mile distant from the rocky promontory of Brachy-Pwll, the extreme westerly point of north Wales, lies the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the third baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king." Selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his viceroy's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

**TWO DOLLAR WHEAT.**  
Bulls on the Chicago Board of Trade Predict That Price.

Chicago, Sept. 13.—"Wheat at \$2 a bushel before next May," was roared by the bulls during the day on the board of trade. At the opening of the market there was an excited demand for wheat, with few traders venturing to sell. The price for May delivery was from \$1.11½ to \$1.12 and for delivery for the present month from \$1.07½ to \$1.08. Those who wished to buy shouted bids of 2 cents a bushel above the prices prevailing at the close of the market the previous day and the quantity that any one would sell even at such a tempting advance was extremely limited.

The agricultural bureau at Washington, through information furnished by its army of crop reporters scattered throughout every wheat growing country in the country, issued a report that, according to the bulls, confirmed the worst fears regarding the lamentable loss to the spring wheat crop by the black rust.

**DIFFICULTIES GROW ACUTE.**  
Serious Trouble Likely Between the French and Colonial Fishermen.

St. Johns, N. B., Sept. 13.—The difficulties between French and colonial fishermen on the French shore are daily growing more acute. On Saturday a British warship on the demand of the French commodore, stopped a party of colonial lobster catchers there. On Friday, on the fishing banks, fourteen men, armed with knives, from a French fishing vessel which had previously disguised her name with a piece of sail cloth, boarded a colonial vessel and carried off her whole sack of bait.

In another section a French vessel deliberately ran down and nearly sank a colonial fish smack.

Grave apprehension is felt respecting these outrages. British warships will be asked to punish the offenders.

**TELEGRAPHIC BREVITIES.**  
The International Electrical congress convened Monday at St. Louis.

Louise Sterling, alias Cleo Page, committed suicide at St. Paul Monday night by taking carbolic acid while despondent.

Major Charles H. Gardner of Watertown, Wis., aged sixty-two years, was found drowned in La Belle lake, Oconomowoc, Monday.

Secretary of the Treasury Shaw addressed a large audience at Denver Monday night. He touched on all the issues of the campaign.

Anti-Jewish disturbances occurred Sunday at the frontier town of Sosnowice, Russian Poland, on the occasion of the celebration of the Jewish new year.

C. G. Bloomquist, a Minneapolis grocer, was shot in the hand by a man who tried to hold him up Monday night. Bloomquist had \$1,000 in his possession, but retained it.

The thirty-two barns on the livestock grounds are overtaken by the 2,400 entries for the St. Louis world's fair cattle show, which commenced Monday to continue until Sept. 24.

John M. Biegler, a young lawyer, was found dead in his office at Chicago Monday. A revolver shot through the temple had ended his life, and the police declare that he committed suicide.

**NEW ZEALAND GEYSERS.**  
Among Them Is Said to Be the Biggest Spouter in the World.

Yellowstone park is reputed to have the most magnificent geysers in the world, but their reputation is based upon the statements of travelers who have never been to New Zealand and who know nothing of its natural wonders.

Leaving Auckland by a fast express train, a journey of eight hours brings one to Rotorua, where may be seen the most splendid geyser which is probably to be found anywhere in the world. To give one some idea of the magnitude of the geyser I need mention only the height of some of the surrounding objects. Over the "Inferno crater," which contains a seething lake of water, is a small shelter shed 450 feet above the plain. The surface of the water in the geyser basin when at rest is about forty feet below this plain. The height of the eruption must often be about 900 feet. This is by no means exceptional. Higher "shots" have been recorded. I have myself seen a shot computed at 1,200 feet. Some months ago the area of the basin was measured in a small boat by a Mr. Buckridge and a guide. They found that the area is about two and a half acres, from which it may be inferred that this geyser may well be called the largest in the world.

The geyser plays about twenty-two times each month, is very erratic and gives no warning when it is about to erupt. The theory is advanced that the basin is somewhat like a funnel and that when the water and stones are ejected the larger stones return and jam in the neck, thereby choking the outlet, so that an enormous pressure of steam must shift them. When the pressure is sufficiently great to blow out the obstructions it naturally would eject water to a great height. The theory, however, is at best rather fanciful.

This geyser is not the only one to be seen in the vicinity. Others may be mentioned, such as the Pohutu, Wairoa, Feather, Papakura and others, besides mud volcanoes.—Scientific American.

**ASIATIC TIGER PROVERBS.**  
A tiger's meal—a gluttonous repast.  
To face the tiger in his lair—great bravery.  
A winged tiger—cunning added to power and ability.  
After the Chinese the tigers—total devastation of a country.  
A tiger of wood—a harmless being with a dangerous exterior.  
To bring up a tiger and have him turn upon you—ingratitude.  
"Malingho," a man eater—a person with an ungovernable temper.  
A tiger with a broken back—rage and fury which are powerless.  
To let go the tail of a tiger—to avoid one danger and encounter another.  
To turn from a deer and meet a tiger—the danger of too much caution.  
Devoured by a tiger—said of a man who wishes to be concealed from his creditors.  
You must enter the tiger's den if you would secure a cub—what is worth having is not procured without risk and trouble.—Washington Post.

**Indians With Jewish Blood.**  
Sir Alexander Mackenzie had an idea that the Indians of the far northwest were partly Jewish in origin. From Lake Athabasca in 1794 he set out at the head of an expedition "in a birch bark canoe twenty-five feet long, four and three-quarters feet beam and twenty-six inches hold, with 3,000 pounds of baggage and provisions and a crew of nine French Canadians. He reached the Pacific coast and returned. The aborigines he met were "for the most part possessed of strongly religious instincts," said he in his report. "With regard to their origin, all we are prepared to state after a careful survey of their languages, manners and customs is that they are undoubtedly of a mixed origin; come from the north-northwest and had commerce in their early history perhaps through intermarriage with people of Jewish persuasion or origin."

**Heine's Sense of Humor.**  
Heine's sense of humor did not leave him until the last. A few days before his death Hector Berlioz called on him just as a thresome German professor was leaving after worrying him with his uninteresting conversation. "I am afraid you will find me very stupid, my dear fellow," he said. "The fact is I have just been exchanging thoughts with Dr. —"

On one occasion when the doctor was examining his chest he asked him, "Can you whistle?" He replied, "Alas, no; not even the pieces of M. Scribe."

**Made a Lock For the Key.**  
An old and curious key and lock are attached to the door of Temple church in Fleet street, London. The key weighs seven pounds, is eighteen inches long, and, unlike other keys, it was not made for the lock. On the contrary, the lock was made for it. Both key and lock have been in use since the crusades, the church itself having been built by the Knights Templars in 1485.—London Standard.

**Inconsistent.**

**What is Life?**  
In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. Only 25c at H. P. Dunn & Co.'s drug store.

**Strength.**  
"Some scientist has declared that there is as much strength in three eggs as there is in a pound of beefsteak," said the observer.  
"Well," replied the actor, "I met an egg once that would have eliminated the other two eggs from that proposition."—Exchange.

**Fearful Odds Against Him.**  
Bedridden, alone and destitute. Such in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitter. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by H. P. Dunn & Co., druggists.

I have opened up a new store and invite you to inspect it.

**The Only Line With a World's Fair Station.**  
This refers to the Minneapolis & St. Louis railroad and means:  
1st—The shortest line.  
2nd—The most comfortable route.  
3rd—Two fine through trains direct to the gates of the fair.  
4th—A saving of about three hours in time.  
5th—You avoid the crowds at the union depot and on the street cars.  
6th—You save money by being landed just where you want to go.  
There are many other reasons but "a word to the wise is sufficient."  
For excursion tickets, berth reservations and a complete guide to the fair, free, address A. B. Cutts, G. P. & T. A., Minneapolis, Minn.

**BUSINESS BLOCKS BURNED.**  
One Section of an Idaho City Wiped Out by Fire.  
Idaho Falls, Ida., Sept. 13.—Almost every business block in this city was wiped out by a fire that started in the Butte cafe and which burned seven hours. The loss will reach \$300,000, with small insurance.  
Fanned by the wind that blew almost hurricane velocity the fire swept down Broadway, the principal business street, destroying every building for nearly seven blocks. The fire was confined to the business district, no residences being destroyed.

**THE RESULT IN MAINE**  
THE REPUBLICAN CANDIDATE FOR GOVERNOR CARRIES THE STATE.  
GAINS MADE BY BOTH SIDES  
DEMOCRATS MADE A HARD FIGHT TO CUT DOWN REPUBLICAN PLURALITY.

Portland, Me., Sept. 13.—The Republicans Monday carried the state for W. T. Cobb of Rockford, Republican candidate for governor, by a plurality of about 30,000 over Cyrus W. Davis of Waterville, his Democratic opponent. The complete returns will not be received for several days, but 300 out of 522 cities and towns give Cobb 59,000, Davis 38,000. The same places in 1900 gave Hill, Rep., 51,000; Lord, Dem., 29,000. These returns show a Republican gain of about 5 per cent and a Democratic gain of about 31 per cent. All four Republican candidates for congress, Amos L. Allen, Charles E. Littlefield, E. C. Burleigh and Llewellyn Powers were also returned, and a Republican majority in the legislature was assured.

The Republican party was also successful in many county contests, of which there were more than the usual number. While the various county contests were bitter and hard fought, general interest was fixed upon the probable plurality for Mr. Cobb, the Republican candidate, the Democrats aiming to reduce it below the 33,000 of 1900 and the Republicans determined to prevent a falling off.

**FAIRBANKS VISITS ROOSEVELT.**  
Republican Vice Presidential Candidate at Sagamore Hill.

Oyster Bay, N. Y., Sept. 13.—Senator C. W. Fairbanks of Indiana, Republican candidate for vice president, is a guest of President Roosevelt at Sagamore Hill. He arrived Monday. Senator Fairbanks said he had been on the move almost constantly since he had come East, and thus far the campaign work has been agreeable. His health is good. He declined to detail his political observations, but said so far as he could ascertain the situation was quite satisfactory from his point of view. The senator said his visit to the president was of personal rather than public interest. They were discussing questions on which he might not see the president again. The senator will leave here Tuesday. He will speak at Wilmington and Dover, Del., Baltimore and perhaps at some other places and on Sept. 21 will leave for the West to take an active part in the campaign there.

During their conference at Sagamore Hill, the president and Senator Fairbanks received returns from the election in Maine.

**TAKEN UNDER ADVISEMENT.**  
Motion to Dismiss All Cases Against Former Mayor Ames.

Minneapolis, Sept. 13.—Before Judge A. M. Harrison during the day County Attorney F. H. Boardman moved to nolle all the bribery and corruption indictments, ten in all, standing against former Mayor A. A. Ames. Mr. Boardman explained that owing to the death and removal of witnesses and other reasons it would be impossible to obtain a conviction and to press the charges further would involve a waste of time and money. Mr. Boardman gave as a further reason the fact that additional trials would "give an offensive advertisement to our city."

Dr. Ames was convicted in the lower court on one charge, but the supreme court reversed the finding and sent the case back for retrial. Judge Harrison took the motion under advisement.

**DEMOCRATIC LEADERS CONFER.**  
Hold a Long Session at National Headquarters in New York.

New York, Sept. 13.—There was a conference of national leaders at the national Democratic headquarters which lasted during the greater part of the day. Among those present were Henry G. Davis, the vice presidential candidate, Chairman Taggart, August Belmont, William F. Sheehan, James K. Jones, D. J. Campana of Michigan, James H. Hogg of Texas, John G. Carlisle, Thomas F. Ryan and James M. Guffey of Pennsylvania.

**The King of Bardsey.**

About a mile distant from the rocky promontory of Brackley-Pwll, the extreme western point of North Wales, lies the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the third baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king," selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his vicegerent's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

**TWO DOLLAR WHEAT.**  
Bulls on the Chicago Board of Trade Predict That Price.  
Chicago, Sept. 13.—"Wheat at \$2 a bushel before next May," was roared by the bulls during the day on the board of trade. At the opening of the market there was an excited demand for wheat, with few traders venturing to sell. The price for May delivery was from \$1.11½ to \$1.12 and for delivery for the present month from \$1.07½ to \$1.08. Those who wished to buy shouted bids of 2 cents a bushel above the prices prevailing at the close of the market the previous day and the quantity that any one would sell even at such a tempting advance was extremely limited.

The agricultural bureau at Washington, through information furnished by its army of crop reporters scattered throughout every wheat growing country in the country, issued a report that, according to the bulls, confirmed the worst fears regarding the lamentable loss to the spring wheat crop by the black rust.

**DIFFICULTIES GROW ACUTE.**

Serious Trouble Likely Between the French and Colonial Fishermen.

St. Johns, N. B., Sept. 13.—The difficulties between French and colonial fishermen on the French shore are daily growing more acute. On Saturday a British warship on the demand of the French commodore, stopped a party of colonial lobster catchers there. On Friday, on the fishing banks, fourteen men, armed with knives, from a French fishing vessel which had previously disguised her name with a piece of sail cloth, boarded a colonial vessel and carried off her whole stock of bait.

In another section a French vessel deliberately ran down and nearly sank a colonial fish smack.

Grave apprehension is felt respecting these outrages. British warships will be asked to punish the offenders.

**TELEGRAPHIC BRIEVITIES.**

The International Electrical congress convened Monday at St. Louis.

Louise Sterling, alias Cleo Page, committed suicide at St. Paul Monday night by taking carbolic acid while despondent.

Major Charles H. Gardner of Watertown, Wis., aged sixty-two years, was found drowned in La Belle lake, Oconomowoc, Monday.

Secretary of the Treasury Shaw addressed a large audience at Denver Monday night. He touched on all the issues of the campaign.

Anti-Jewish disturbances occurred Sunday at the frontier town of Sosnowice, Russian Poland, on the occasion of the celebration of the Jewish new year.

C. G. Bloomquist, a Minneapolis grocer, was shot in the hand by a man who tried to hold him up Monday night. Bloomquist had \$1,000 in his possession, but retained it.

The thirty-two barns on the livestock grounds are overtaxed by the 2,400 entries for the St. Louis world's fair cattle show, which commenced Monday to continue until Sept. 24.

John M. Biegler, a young lawyer, was found dead in his office at Chicago Monday. A revolver shot through the temple had ended his life, and the police declare that he committed suicide.

**NEW ZEALAND GEYSERS.**  
Among Them Is Said to Be the Biggest Spouter in the World.

Yellowstone park is reputed to have the most magnificent geysers in the world, but their reputation is based upon the statements of travelers who have never been to New Zealand and who know nothing of its natural wonders.

Leaving Auckland by a fast express train, a journey of eight hours brings one to Rotorua, where may be seen the most splendid geyser which is probably to be found anywhere in the world. To give one some idea of the magnitude of the geyser I need mention only the height of some of the surrounding objects. Over the "Inferno crater," which contains a seething lake of water, is a small shelter shed 450 feet above the plain. The surface of the water in the geyser basin when at rest is about forty feet below this plain. The height of the eruption most often be about 900 feet. This is by no means exceptional. Higher "shots" have been recorded. I have myself seen a shot computed at 1,200 feet. Some months ago the area of the basin was measured in a small boat by a Mr. Buckridge and a guide. They found that the area is about two and a half acres, from which it may be inferred that this geyser may well be called the largest in the world.

The geyser plays about twenty-two times each month, is very erratic and gives no warning when it is about to erupt. The theory is advanced that the basin is somewhat like a funnel and that when the water and stones are ejected the larger stones return and jam in the neck, thereby choking the outlet, so that an enormous pressure of steam must shift them. When the pressure is sufficiently great to blow out the obstructions it naturally would eject water to a great height. The theory, however, is at best rather fanciful.

This geyser is not the only one to be seen in the vicinity. Others may be mentioned, such as the Pohutu, Wairoa, Feather, Papakura and others, besides mud volcanoes.—Scientific American.

**ASIATIC TIGER PROVERBS.**

A tiger's meal—a gluttonous repast.  
To face the tiger in his lair—great bravery.

A winged tiger—cunning added to power and ability.  
After the Chinese the tigers—total devastation of a country.

A tiger of wood—a harmless being with a dangerous exterior.

To bring up a tiger and have him turn upon you—ingratitude.

"Maingoho," a man eater—a person with an ungovernable temper.

A tiger with a broken back—rage and fury which are powerless.

To let go the tail of a tiger—to avoid one danger and encounter another.

To turn from a deer and meet a tiger—the danger of too much caution.

Devoured by a tiger—said of a man who wishes to be concealed from his creditors.

You must enter the tiger's den if you would secure a cub—what is worth having is not procured without risk and trouble.—Washington Post.

**Indians With Jewish Blood.**

Sir Alexander Mackenzie had an idea that the Indians of the far northwest were partly Jewish in origin. From Lake Athabasca in 1794 he set out at the head of an expedition "in a birch bark canoe twenty-five feet long, four and three-quarters feet beam and twenty-six inches hold, with 3,000 pounds of baggage and provisions and a crew of nine French Canadians. He reached the Pacific coast and returned. The aborigines he met were "for the most part possessed of strongly religious instincts," said he in his report. "With regard to their origin, all we are prepared to state after a careful survey of their languages, manners and customs is that they are undoubtedly of a mixed origin; come from the north-northwest and had commerce in their early history perhaps through intermarriage with people of Jewish persuasion or origin."

**Heine's Sense of Humor.**

Heine's sense of humor did not leave him until the last. A few days before his death Hector Berlioz called on him just as a tiresome German professor was leaving after worrying him with his uninteresting conversation. "I am afraid you will find me very stupid, my dear fellow," he said. "The fact is I have just been exchanging thoughts with Dr. —"

On one occasion when the doctor was examining his chest he asked him, "Can you whistle?" He replied, "Alas, no; not even the pieces of M. Scribe."

**Made a Lock For the Key.**

An old and curious key and lock are attached to the door of Temple church in Fleet street, London. The key weighs seven pounds, is eighteen inches long, and, unlike other keys, it was not made for the lock. On the contrary, the lock was made for it. Both key and lock have been in use since the crusades, the church itself having been built by the Knights Templars in 1185.—London Standard.

**Inconsistent.**

"She is the most inconsistent woman I ever saw."  
"But, you know, it is a woman's privilege to change her mind."  
"Of course it is. That is what is expected. But this girl never does."—New York Press.

**In a Bad Way.**

Doctor—So you think you have insomnia? Spoiled Darling—Sure of it, doctor. I can't sleep after 9 o'clock in the morning!—Detroit Free Press.

**What Is Life?**

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. Only 25c at H. P. Dunn & Co.'s drug store.

**Strength.**

"Some scientist has declared that there is as much strength in three eggs as there is in a pound of beefsteak," said the observer.

"Well," replied the actor, "I met an egg once that would have eliminated the other two eggs from that proposition."—Exchange.

**Praying For the Sister.**

Mrs. Bitter—I just hate that woman. I hope she'll lose all her money, get some disfiguring illness, be run down by a train—Rev. Goodhart—Sister, sister! We are told to pray for our enemies. Mrs. Bitter—Well, I'm praying for all those things for her.—Philadelphia Press.

**Fearful Odds Against Him.**

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitter. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by H. P. Dunn & Co., druggists.

I have opened up a new store and invite you to inspect it.

dwtf H. W. LINNEMAN.

**The Only Line With a World's Fair Station.**

This refers to the Minneapolis & St. Louis railroad and means:

1st—The shortest line.

2nd—The most comfortable route.

3rd—Two fine through trains direct to the gates of the fair.

4th—A saving of about three hours in time.

5th—You avoid the crowds at the union depot and on the street cars.

6th—You save money by being landed just where you want to go.

There are many other reasons but "a word to the wise is sufficient."

For excursion tickets, berth reservations and a complete guide to the fair, free, address A. B. Cutts, G. P. & T. A., Minneapolis, Minn.
